

SunTrust Index-Linked Certificates of Deposit (SILC)

Subject to Completion, Dated November 4, 2009

Disclosure Statement Supplement for SILC 223 dated November 4, 2009

Disclosure Statement dated July 31, 2009

CUSIP # 86789VKU0

Available until November 20, 2009

Linked to the Dow Jones - UBS Commodity IndexSM

Maturing November 28, 2014

SUMMARY

This is a 5-year principal protected product, meaning an investor who holds the SunTrust Index Linked CD ("SILC") to maturity will not receive less than the principal amount of the SILC outstanding on the maturity date. Investors in this SILC will receive a return in excess of zero if (and only if) the percentage change in the Dow Jones - UBS Commodity IndexSM (the "Index") on the final Index measurement date compared to the level of the Index on the initial Index measurement date is greater than zero, subject to a maximum appreciation rate that will not be less than 50.00%. In such a circumstance, investors in this SILC will receive an interest payment at maturity equal to the product of the outstanding SILC principal amount and the percentage increase of the Index compared to the level of the Index on the initial Index measurement date, subject to the maximum appreciation rate. The investor will receive only the outstanding principal amount in the event that the percentage change of the Index during the term of the SILC is negative. The actual maximum appreciation rate will be determined by the Calculation Agent on the initial Index measurement date.

Investors in this SILC should have the view that, on the final Index measurement date, the level of the Index will have increased compared to the level of the Index on the initial Index measurement date. Investors in this SILC should also be willing to forgo participation in increases above the cap in return for principal protection. All payments are made at maturity. This SILC does not pay periodic interest.

The paragraph above is provided for summary purposes only and does not supplement, amend or otherwise modify the Disclosure Statement or the provisions of the Disclosure Statement Supplement below (together, the "Disclosure Documents"). The terms used above are descriptive and may not be consistent with the defined terms in the Disclosure Documents. In the event of a discrepancy between the paragraph above and the Disclosure Documents, the Disclosure Documents will prevail. Investors should possess a detailed understanding of the Disclosure Documents, and the risk factors specified therein, before investing in this SILC.

"Dow Jones", "UBS", "Dow Jones - UBS Commodity IndexSM", and "DJ-UBSCISM" are service marks of Dow Jones & Company, Inc. and UBS AG, as the case may be, and have been licensed for use for certain purposes by SunTrust Bank. SunTrust Bank's SILCs based on the Dow Jones - UBS Commodity IndexSM, are not sponsored, endorsed, sold or promoted by Dow Jones, UBS or any of their respective subsidiaries or affiliates, and none of Dow Jones, UBS or any of their respective affiliates, makes any representation regarding the advisability of investing in such products.

SILCs are issued by SunTrust Bank, arranged by SunTrust Robinson Humphrey, Inc. an affiliate of SunTrust Bank, and sold through a network of broker-dealers, including SunTrust Robinson Humphrey, Inc. and SunTrust Investment Services, Inc., both members of FINRA and SIPC, and both wholly owned registered broker-dealer subsidiaries of SunTrust Banks, Inc. and affiliates of SunTrust Bank.

SunTrust Index-Linked Certificates of Deposit (SILC)

- On the Maturity Date, SunTrust Bank will pay the outstanding principal amount of the SILC plus an interest payment (the “Indexed Amount”) that will be based on the performance of the Dow Jones - UBS Commodity IndexSM over the term of the SILC, subject to a Maximum Appreciation Rate (as defined herein). The Indexed Amount may be zero but it will not be less than zero. The return on a SILC may be less than the return on the Index over the term of the SILC. Please see the sections entitled “Description of the SILC” and “Risk Factors” in this Disclosure Statement Supplement.
- There is no minimum interest amount on the SILC. The SILC is 100% principal protected if held to maturity. SunTrust Bank will pay the outstanding principal amount of the SILC on the Maturity Date. Please see the section entitled “Description of the SILC” in this Disclosure Statement Supplement.
- The principal amount of each SILC is insured by the Federal Deposit Insurance Corporation (the “FDIC”) within the limits and to the extent described in the attached Disclosure Statement and in this Disclosure Statement Supplement. An investor purchasing a principal amount of the SILCs that is in excess of the maximum applicable deposit insurance limit or which, together with other deposits that such investor maintains at SunTrust Bank, is in excess of such limit cannot rely on the availability of FDIC deposit insurance with respect to such excess. On such excess, the investor will be taking the direct credit risk of SunTrust Bank. In addition, the FDIC has taken the position that contingent interest on the SILC and any secondary market premium paid by a depositor above the principal amount of a SILC is not insured by the FDIC. Please see the sections headed “Deposit Insurance: General” and “Deposit Insurance: Retirement Plans and Accounts” in the attached Disclosure Statement and the sections headed “Temporary Increase in Deposit Insurance Limits” and “FDIC Temporary Liquidity Guarantee Program Does Not Apply to SILCs” in this Disclosure Statement Supplement.
- SunTrust Bank will allow the withdrawal of funds only upon the death or adjudication of incompetence of the beneficial owner of the SILC. In such event, only the outstanding principal amount of the SILC will be paid and no interest will be paid. The SILC is not designed to be a short-term investment, so an investor should be willing and able to hold the SILC to maturity. There will not be an active secondary market in the SILC.
- For a discussion of the risks related to an investment in the SILC, please see the sections entitled “Risk Factors” in this Disclosure Statement Supplement and in the attached Disclosure Statement.
- We intend to treat the SILCs as contingent payment debt instruments for U.S. federal income tax purposes and the remainder of this discussion assumes such treatment. A U.S. Holder (as defined below) of a SILC will be required to include original issue discount (“OID”) in gross income each year, even though no cash payments will be made with respect to the SILCs until maturity. The amount of OID includible in each year is based on the “comparable yield.” In addition, we have computed a “projected payment amount” at maturity that produces the comparable yield. The comparable yield and the projected payment amount are neither predictions nor guarantees of the actual yield on the SILCs or the actual payment at maturity. If the amount we actually pay at maturity is, in fact, less than the projected payment amount, then a U.S. Holder would have recognized taxable income in periods prior to maturity that exceeds the U.S. Holder’s economic income from holding the SILC during such periods (with an offsetting ordinary loss). If a U.S. Holder disposes of the SILC prior to maturity, the U.S. Holder will be required to treat any gain recognized upon the disposition of the SILC as ordinary income (rather than capital gain). Depositors should refer to “Certain United States Federal Income Tax Considerations” below for additional information.
- The SILC is available through a network of Offering Brokers, including SunTrust Robinson Humphrey, Inc. and SunTrust Investment Services, Inc., which are affiliates of SunTrust Bank.

Capitalized terms used but not defined in this Disclosure Statement Supplement have the meanings given to them in the Disclosure Statement.

SunTrust Index-Linked Certificates of Deposit (SILC)

Depositor Suitability

The SILCs may be suitable for you if:

- ◆ You seek an investment with a return linked to the possible participation in the Index up to the Maximum Appreciation Rate.
- ◆ You seek an investment that offers full principal protection when held to maturity.
- ◆ You do not seek periodic income from this investment.
- ◆ You are willing and able to hold the SILCs to maturity, and you are willing to accept that there may be little or no secondary market for the SILCs.
- ◆ You are comfortable with the creditworthiness of SunTrust Bank, as Issuer of the SILCs.

The SILCs may not be suitable for you if:

- ◆ You do not seek an investment with exposure to the Index.
- ◆ You seek an investment that is exposed to the full potential appreciation of the Index.
- ◆ You seek periodic income from this investment.
- ◆ You are unable or unwilling to hold the SILCs to maturity, and you seek an investment for which there will be an active secondary market.
- ◆ You are unwilling or unable to assume the credit risk associated with SunTrust Bank, as Issuer of the SILCs.

The suitability considerations identified above are not exhaustive. Whether or not the SILCs are a suitable product for you will depend on your individual circumstances, and you should reach a decision to purchase SILCs only after you and your investment, legal, tax, accounting and other advisors have carefully considered the suitability of the SILCs in light of your particular circumstances.

SunTrust Index-Linked Certificates of Deposit (SILC)

Description of SILC

Issuer:	<p>SunTrust Bank. SILCs are obligations solely of SunTrust Bank.</p> <p>As of the date of this Disclosure Statement Supplement, the long term senior debt obligations of SunTrust Bank are rated A2 by Moody's Investors Service, Inc. and A- by Standard & Poor's Financial Services LLC. These ratings are subject to change by the rating agencies at any time. SunTrust Bank is not required to, and does not intend to, notify investors of any change in its ratings.</p> <p>A credit rating reflects the creditworthiness of SunTrust Bank and is not a recommendation to buy, sell or hold the SILC. The SILC itself has not been independently rated.</p>
Index:	Dow Jones - UBS Commodity Index ("DJ-UBS", Index Bloomberg Code: DJUBS)
Index Price:	With respect to any Index Measurement Date, that day's official settlement price of the Index, stated in U.S. Dollars, published by Dow Jones & Company, Inc. or its successor, UBS AG or its successor, and UBS Securities LLC or its successor (the "Price Source")
Currency:	U.S. Dollars
Offering Period:	Available until November 20, 2009 (Closes at 12 noon ET on November 20, 2009)
Issue Date:	November 30, 2009
Maturity Date:	November 28, 2014, subject to adjustment due to the occurrence of a Market Disruption Event or if such day is not a Business Day.
Payment at Maturity (if held to maturity):	The amount payable on each SILC will be the outstanding principal amount plus an amount equal to the Indexed Amount (subject to a Maximum Appreciation Rate).
Indexed Amount:	The Indexed Amount will equal the product of the Index Appreciation Rate (subject to a Maximum Appreciation Rate) and the outstanding principal amount of the SILC on the Maturity Date, provided that, if the Index Appreciation Rate is negative, the Indexed Amount shall be zero.
Maximum Appreciation Rate:	<p>Not less than 50.00% (current projected range is 50.00% - 60.00%).</p> <p>The actual Maximum Appreciation Rate will be determined by the Calculation Agent on the initial Index Measurement Date.</p>
Index Appreciation Rate:	<p>The Calculation Agent will determine the Index Appreciation Rate by applying the following formula:</p> $\left(\frac{\text{DJUBS}_{\text{final}}}{\text{DJUBS}_{\text{initial}}} \right) - 1$ <p>Where: "DJUBS_{final}" means the Index Price on November 20, 2014.</p>

SunTrust Index-Linked Certificates of Deposit (SILC)

	<p>“DJUBS_{initial}” means the Index Price on November 20, 2009.</p> <p>If any of the above dates (each, an “Index Measurement Date”) is not a Commodity Business Day, then the Index Measurement Date will be the first following day that is a Commodity Business Day, unless there occurs a Market Disruption Event on such date, in which case the Index Price shall be determined in accordance with the provisions of the section entitled “Market Disruption Events” below.</p> <p>If the Index Price for any Index Measurement Date is subsequently corrected and the correction is published on or before the Maturity Date, the corrected Index Price may be used by the Calculation Agent, in its discretion, in making determinations with respect to this SILC.</p> <p>Subject to the foregoing, changes in the level of the Index from the final Index Measurement Date to the Maturity Date will not be taken into account in the determination of the Indexed Amount.</p> <p>The Index Appreciation Rate will be expressed as a percentage. If the Index Appreciation Rate is negative, the Indexed Amount shall be deemed to be zero.</p> <p>If the Index Appreciation Rate, as calculated above, exceeds the Maximum Appreciation Rate, then the Index Appreciation Rate shall be deemed to equal the Maximum Appreciation Rate for purposes of calculating the Indexed Amount.</p>
Call Feature:	None
Death Put:	In the event of the death or adjudication of incompetence of the beneficial owner of the SILC, full withdrawal of the outstanding principal amount of the SILC will be permitted. No Indexed Amount will be paid with respect to any SILC that has been withdrawn prior to maturity. Please see the section entitled “Description of the CD - Early Withdrawal” in the attached Disclosure Statement.
Early Redemption Date:	None
Commodity Business Day:	Any day in respect of which the Price Source published (or, but for the occurrence of a Market Disruption Event would have published) the Index Price.
Business Day:	Any day on which commercial banks settle payments and are open for general business (including dealings in foreign exchange and foreign currency deposits) in New York and London.
Minimum Denomination:	\$1,000. The SILC may also be purchased in increments of integral multiples of \$1,000 in excess of the Minimum Denomination.
Calculation Agent:	SunTrust Bank
CUSIP No.:	86789VKU0

SunTrust Index-Linked Certificates of Deposit (SILC)

HYPOTHETICAL EXAMPLES

The following table shows hypothetical levels of the Index for several different scenarios over the term of the SILC. Because the level of the Index may be subject to significant fluctuations over the term of the SILC, we cannot show the range of possible payments at maturity that would result from possible changes in the level of the Index over the term of the SILC. These hypothetical examples are for purposes of illustration only. The actual Indexed Amount received by a purchaser of the SILC will depend on the actual levels of the Index used in determining the Index Appreciation Rate.

The following table indicates how the Indexed Amount would be calculated with respect to a \$1,000 SILC correlated to hypothetical changes in the level of the Index and assuming a Maximum Appreciation Rate of 50.00% and an initial Index Measurement Date of 137.318. The actual Maximum Appreciation Rate and initial Index Measurement Date will be determined on the initial Index Measurement Date.

	Scenario 1	Scenario 2	Scenario 3
DJUBS _{initial}	137.318	137.318	137.318
DJUBS _{final}	123.586	192.245	219.709
Index Appreciation Rate:	-10.00%	40.00%	60.00%
Maximum Appreciation Rate:	50.00%	50.00%	50.00%
Indexed Amount:	\$0.00	\$400.00	\$500.00

Hypothetical Scenario 1

Since the Index Appreciation Rate is negative, the Indexed Amount is deemed to be zero and the Payment at Maturity is equal to \$1,000.

Payment at Maturity equals:

Principal amount outstanding on Maturity Date + Indexed Amount: $\$1,000 + \$0 = \$1,000$.

Therefore, in the Scenario 1 hypothetical above, Payment at Maturity would be \$1,000.

The actual payment at maturity may differ slightly from the chart above due to rounding.

Hypothetical Scenario 2

Since the Index Appreciation Rate is 40.00%, the Payment at Maturity is \$1,400.

Payment at Maturity equals:

Principal amount outstanding on Maturity Date + Indexed Amount: $\$1,000 + \$400 = \$1,400$.

Therefore, in the Scenario 2 hypothetical above, Payment at Maturity would be \$1,400.

The actual payment at maturity may differ slightly from the chart above due to rounding.

Hypothetical Scenario 3

Since the Index Appreciation Rate is 65.00% and is above the Maximum Appreciation Rate of 50.00%, the Indexed Amount will only be \$500. The Payment at Maturity will be \$1,500.

Payment at Maturity equals:

Principal amount outstanding on Maturity Date + Indexed Amount: $\$1,000 + \$500 = \$1,500$.

Therefore, in the Scenario 3 hypothetical above, Payment at Maturity would be \$1,500.

The actual payment at maturity may differ slightly from the chart above due to rounding and will differ if the Maximum Appreciation Rate is other than 50.00%. The actual Maximum Appreciation Rate will be set on the initial Index Measurement Date.

SunTrust Index-Linked Certificates of Deposit (SILC)

RISK FACTORS

Your investment in a SILC will involve certain risks. In addition to the risks discussed in the attached Disclosure Statement, a purchaser of the SILC should consider that your return on the SILC will be based on the percentage change in the level of the Index from and including the initial Index Measurement Date to and including the final Index Measurement Date. The level of the Index on the final Index Measurement Date, which is used to calculate the Indexed Amount, is the closing level of the Index on a single day during the term of the SILC. Your return, therefore, could be significantly different if the Indexed Amount were calculated based upon a different date during the same term of the SILC. However, the magnitude of such potential difference cannot be predicted. The return on the SILC is uncertain and the SILC could produce no return on the investor's investment.

Your return may vary from a direct investment in the Index and your appreciation potential is limited.

The SILC is not equivalent to investing directly in the Index or its underlying components. An investor in the SILC may receive a lower payment at maturity than such investor would have received had it invested directly in the Index or its underlying components. If the Index Appreciation Rate is greater than the Maximum Appreciation Rate, the return on the SILC will be limited to the Maximum Appreciation Rate, which will be less than what an investor would have received had it invested directly in the Index or its underlying components. The return on the SILC is uncertain; it could be zero and will never exceed the Maximum Appreciation Rate.

An investment in the SILC is subject to the credit risk of the Issuer and the SILC constitutes a senior unsecured obligation of the Issuer.

The commodity futures contracts underlying the Index components are subject to legal and regulatory regimes that may change in ways that could adversely affect the level of the Index. Such a change in law or regulation could negatively impact the value of your SILC.

The commodity futures contracts that underlie the Index components are subject to legal and regulatory regimes in the United States. Changes to such legal and regulatory regimes may negatively affect the value of the Index. The Commodity Futures Trading Commission ("CFTC") and the exchanges on which such futures contracts trade, are authorized to take extraordinary actions in the event of a market emergency, including, for example, the retroactive implementation of speculative position limits or higher margin requirements, the establishment of daily limits and the suspension of trading. Furthermore, certain exchanges have regulations that limit the amount of fluctuations in futures contract prices which may occur during a single five minute trading period. These limits could adversely affect the market prices of relevant futures contracts and forward contracts. The regulation of commodity transactions in the U.S. is subject to ongoing review and modification. In addition, various national governments have expressed concern regarding the disruptive effects of speculative trading in the commodity markets and the need to regulate the derivative markets in general. The effects of any future regulatory change on the value of the SILCs is impossible to predict, but could be substantial and adverse to the interests of holders of the SILCs. For example, the CFTC has recently announced that it is considering imposing position limits on certain commodities (such as energy commodities) and the manner in which current exemptions for bona fide hedging transactions or positions are implemented in order to protect against excessive speculation. Proposed legislation to that effect is currently being considered by the United States Congress. Such restrictions may have a negative effect on the level of the Index and the value of your SILC. For instance, the removal or replacement of any current Index components (as may be allowed by the Index methodology) could affect the diversification of the Index components. Further, position limits may affect the volume and/or volatility of the underlying Index components, which could negatively affect the Index levels and, in turn, the value of your SILC.

SunTrust Index-Linked Certificates of Deposit (SILC)

Commodity prices may fluctuate rapidly, affecting the level of the Index.

Trading in commodity futures contracts can be extremely volatile. Market prices of the commodities on which such contracts are based may fluctuate rapidly based on numerous factors, including: changing supply and demand; weather; agriculture; trade; fiscal, monetary and exchange control programs; domestic and foreign political and economic events and policies; applicable legal, regulatory and administrative rules and requirements (and proposed and actual changes to such rules and requirements); disease; technological developments and interest rate movements. These factors may affect the level of the Index.

Higher future prices of the commodities underlying the Index relative to their current prices may adversely affect the value of the Index and the value of this SILC.

The Index is composed of futures contracts on physical commodities. Unlike equities, which typically entitle the holder to a continuing stake in a corporation, commodity futures contracts normally specify a certain date for delivery of the underlying physical commodity. As the futures contracts that compose the Index approach expiration, they are replaced by contracts that have a later expiration. Thus, for example, a contract purchased and held in September may specify an October expiration. As time passes, the contract expiring in October is replaced by a contract for delivery in November. This process is referred to as “rolling”. If the market for these contracts is (putting aside other considerations) in “backwardation”, where the prices are lower in the distant delivery months than in the nearer delivery months, the sale of the October contract would take place at a price that is higher than the price of the November contract, thereby creating a “roll yield”. While many of the contracts included in the Index have historically exhibited consistent periods of backwardation, backwardation will most likely not exist at all times. Moreover, certain of the commodities included in the Index have historically traded in “contango” markets. Contango markets are those in which the prices of contracts are higher in the distant delivery months than in the nearer delivery months. The absence of backwardation in the commodity markets could result in negative “roll yields”, which could adversely affect the value of the Index and, accordingly, the value of the SILC.

The historical levels of the Index may not indicate future levels of the Index.

The historical levels of the Index are not an indication of the levels of the Index during the term of this SILC. Future performance cannot be predicted based on historical performance.

Interest on the SILC is not compounded.

The Indexed Amount or the Minimum Interest Amount, as the case may be, will be calculated as simple interest, meaning that it is calculated only on the principal amount of the SILC outstanding on the Maturity Date. Over time, simple interest results in a lower return than a depositor would receive if interest were to accrue periodically and compounded. In addition, if a depositor redeems a SILC (in whole or in part) prior to the Maturity Date, the depositor will not be entitled to receive at maturity any Indexed Amount or Minimum Interest Amount, as the case may be, that would otherwise be payable with respect to the principal amount of the SILC that was redeemed early.

SunTrust Index-Linked Certificates of Deposit (SILC)

THE DOW JONES - UBS COMMODITY INDEXSM

All disclosures contained in this Disclosure Statement Supplement regarding the Index are derived from publicly available information and SunTrust Bank does not assume any responsibility for the accuracy or completeness of such information.

According to publicly available information, the Index is designed to be a highly liquid and diversified benchmark for commodities as an asset class. The index is currently composed of 19 futures contracts on physical commodities traded in the U.S. and is quoted in USD.

Below is a chart with the 2009 target weights, which are in effect as of January 2009.

The Dow Jones - UBS Commodity IndexSM 2009 Commodity Index Percentages	
Natural Gas	11.8900640%

License Agreement

“Dow Jones”, “UBS®”, “Dow Jones - UBS Commodity IndexSM”, and “DJ-UBSCISM” are service marks of Dow Jones & Company, Inc. and UBS AG, Inc. (“UBS AG”), as the case may be, and have been licensed for use for certain purposes by SunTrust Bank.

The SILCs are not sponsored, endorsed, sold or promoted by Dow Jones & Company, Inc. (“Dow Jones”), UBS AG (“UBS AG”), UBS Securities, LLC (“UBS”) or any of their subsidiaries or affiliates. None of Dow Jones, UBS AG, UBS or any of their subsidiaries or affiliates makes any representation or warranty, express or implied, to the owners of or counterparts to the SILCs or any member of the public regarding the advisability of investing in securities or commodities generally or in the SILCs particularly. The only relationship of Dow Jones, UBS AG, UBS or any of their subsidiaries or affiliates to the Licensee is the licensing of certain trademarks, trade names and service marks and of the DJ-UBSCISM, which is determined, composed and calculated by Dow Jones in conjunction with UBS without regard to

SunTrust Index-Linked Certificates of Deposit (SILC)

SunTrust Bank or the SILCs. Dow Jones and UBS have no obligation to take the needs of SunTrust Bank or the owners of the SILCs into consideration in determining, composing or calculating DJ-UBSCISM. None of Dow Jones, UBS AG, UBS or any of their respective subsidiaries or affiliates is responsible for or has participated in the determination of the timing of, prices at, or quantities of the SILCs to be issued or in the determination or calculation of the equation by which the SILCs are to be converted into cash. None of Dow Jones, UBS AG, UBS or any of their subsidiaries or affiliates shall have any obligation or liability, including, without limitation, to SILC customers, in connection with the administration, marketing or trading of the SILCs. Notwithstanding the foregoing, UBS AG, UBS and their respective subsidiaries and affiliates may independently issue and/or sponsor financial products unrelated to the SILCs currently being issued by Licensee, but which may be similar to and competitive with the SILCs. In addition, UBS AG, UBS and their subsidiaries and affiliates actively trade commodities, commodity indexes and commodity futures (including the Dow Jones-UBS Commodity IndexSM and Dow Jones-UBS Commodity Index Total ReturnSM), as well as swaps, options and derivatives which are linked to the performance of such commodities, commodity indexes and commodity futures. It is possible that this trading activity will affect the value of the Dow Jones-UBS Commodity IndexSM, and SILCs.

The Disclosure Statement Supplement relates only to SILCs and does not relate to the exchange-traded physical commodities underlying any of the Dow Jones-UBS Commodity IndexSM components. Purchasers of the SILCs should not conclude that the inclusion of a futures contract in the Dow Jones-UBS Commodity IndexSM is any form of investment recommendation of the futures contract or the underlying exchange-traded physical commodity by Dow Jones, UBS AG, UBS or any of their subsidiaries or affiliates. The information in the Disclosure Statement Supplement regarding the Dow Jones-UBS Commodity IndexSM components has been derived solely from publicly available documents. None of Dow Jones, UBS AG, UBS or any of their subsidiaries or affiliates has made any due diligence inquiries with respect to the Dow Jones-UBS Commodity IndexSM components in connection with SILCs. None of Dow Jones, UBS AG, UBS or any of their subsidiaries or affiliates makes any representation that these publicly available documents or any other publicly available information regarding the Dow Jones-UBS Commodity IndexSM components, including without limitation a description of factors that affect the prices of such components, are accurate or complete.

NONE OF DOW JONES, UBS AG, UBS OR ANY OF THEIR SUBSIDIARIES OR AFFILIATES GUARANTEES THE ACCURACY AND/OR THE COMPLETENESS OF THE DOW JONES-UBS COMMODITY INDEXSM OR ANY DATA INCLUDED THEREIN AND NONE OF DOW JONES, UBS AG, UBS OR ANY OF THEIR SUBSIDIARIES OR AFFILIATES SHALL HAVE ANY LIABILITY FOR ANY ERRORS, OMISSIONS, OR INTERRUPTIONS THEREIN. NONE OF DOW JONES, UBS AG, UBS OR ANY OF THEIR SUBSIDIARIES OR AFFILIATES MAKES ANY WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY SUNTRUST BANK, OWNERS OF THE SILC, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE DOW JONES-UBS COMMODITY INDEXSM OR ANY DATA INCLUDED THEREIN. NONE OF DOW JONES, UBS AG, UBS OR ANY OF THEIR SUBSIDIARIES OR AFFILIATES MAKES ANY EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO THE DOW JONES-UBS COMMODITY INDEXSM OR ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL DOW JONES, UBS AG, UBS OR ANY OF THEIR SUBSIDIARIES OR AFFILIATES HAVE ANY LIABILITY FOR ANY LOST PROFITS OR INDIRECT, PUNITIVE, SPECIAL OR CONSEQUENTIAL DAMAGES OR LOSSES, EVEN IF NOTIFIED OF THE POSSIBILITY THEREOF. THERE ARE NO THIRD PARTY BENEFICIARIES OF ANY AGREEMENTS OR ARRANGEMENTS AMONG DOW JONES, UBS AND SUNTRUST BANK, OTHER THAN UBS AG.

Historical Data

The table below sets forth the month-end closing level of the Index at the end of each month, from January 2002 through October 2009. This historical data on the Index is not indicative of the future performance of the Index or the Indexed Amount. Any historical upward or downward trend in the level of the Index during any period set forth below is not any indication that the Index is more or less likely to increase or decrease at any time during the term of the SILC.

SunTrust Index-Linked Certificates of Deposit (SILC)

On October 30, 2009, the closing level of the Index was 131.8621.

MARKET DISRUPTION EVENTS

“Market Disruption Event” means a Price Source Disruption, Trading Disruption, Disappearance of Commodity Reference Price, Material Change in Formula, Material Change in Content or Tax Disruption.

“Price Source Disruption” means (i) the failure of the Price Source to announce or publish the Index Price (or the information necessary for determining the Index Price) or (ii) the temporary or permanent discontinuance or unavailability of the Price Source.

“Trading Disruption” means the material suspension of, or material limitation imposed on, trading in the Index or a related futures contract, options contract or commodity on the relevant exchange.

“Disappearance of Commodity Reference Price” means (i) the permanent discontinuation of trading in an Index-related futures contract, options contract or commodity on the relevant exchange, (ii) the disappearance of, or of trading in, the Index, or (iii) the disappearance or permanent discontinuance or unavailability of the Index Price, notwithstanding the availability of the Price Source or the status of trading in the Index or in a related futures contract, options contract or commodity.

“Material Change in Formula” means the occurrence since the Issue Date of a material change in the formula for or the method of calculating the Index Price.

“Material Change in Content” means the occurrence since the Issue Date of a material change in the content, composition or constitution of the Index or a related futures contract, options contract or commodity.

“Tax Disruption” means the imposition of, change in or removal of an excise, severance, sales, use, value-added, transfer, stamp, documentary, recording or similar tax on, or measured by reference to, the Index (other than a tax

SunTrust Index-Linked Certificates of Deposit (SILC)

on, or measured by reference to overall gross or net income) by any government or taxation authority after the Issue Date, if the direct effect of such imposition, change or removal is to raise or lower the Index Price on the day that would otherwise be an Index Measurement Date from what it would have been without that imposition, change or removal.

With regard to any component of the Index (each, an “Index Component”), if a Market Disruption occurs on any Index Measurement Date with respect to a futures contract underlying an Index Component, then that Index Component shall be an “Affected Index Component” and (i) if the Index Measurement Date is not during a Roll Period (or Hedge Roll Period, as deemed applicable by the Calculation Agent), then the settlement value of the futures contract underlying the Affected Index Component shall be on the first Commodity Business Day on which there is no longer a Market Disruption Event with respect to the futures contract underlying the Affected Index Component or (ii) if the Index Measurement Date is during a Roll Period (or Hedge Roll Period, as deemed applicable by the Calculation Agent), then the settlement value of all futures contracts underlying the Affected Index Component shall be on the first Commodity Business Day on which there is no longer a Market Disruption Event with respect to any of the futures contracts underlying the Affected Index Component; provided that, in both cases, the Index Price will be calculated as defined in the Dow Jones-UBS Commodity Index Handbook. The settlement values of the Index Components (and their respective futures contracts) not affected by a Market Disruption Event, shall be calculated based on their respective settlement values on the Index Measurement Date. If a Market Disruption Event relating to one or more futures contracts occurs for more than five (5) Commodity Business Days, then the Calculation Agent shall determine the Index Price (or the method for determining the Index Price), taking into consideration the latest available quotation for the Index Price and any other information that in good faith it deems relevant.

“Hedge Roll Period” means the period of five Index Business Days, beginning with the fifth Index Business Day through and including the ninth Index Business Day of each month, as determined by the Calculation Agent.

“Roll Period” means the period of five Index Business Days, beginning with and including the sixth Index Business Day through and including the tenth Index Business Day of each month, as determined by the Calculation Agent.

“Index Business Day” means a “Business Day”, as defined in the most recent Dow Jones-UBS Commodity Index Handbook.

TEMPORARY INCREASE IN DEPOSIT INSURANCE LIMITS

The standard FDIC deposit insurance amount currently in effect is \$250,000 per depositor. The \$250,000 limit is permanent for IRAs and other certain retirement accounts. The \$250,000 limit is temporary for all other deposit accounts through December 31, 2013. On January 1, 2014, the standard insurance amount will return to \$100,000 per depositor for all account categories except IRAs and certain other retirement accounts, which will remain at \$250,000 per depositor. SunTrust Bank is not presently required, nor does it intend, to notify depositors of any subsequent changes in the federal deposit insurance coverage limits.

FDIC TEMPORARY LIQUIDITY GUARANTEE PROGRAM DOES NOT APPLY TO SILCS

On November 21, 2008, the FDIC issued the final rule (the “Final Rule”) instituting a Temporary Liquidity Guarantee Program, which includes additional deposit insurance coverage for certain deposit accounts through December 31, 2009. This additional deposit insurance coverage does not apply to the SILCs. The Final Rule may be modified or adjusted. SunTrust Bank is not presently required, nor does it intend, to notify depositors of any subsequent changes in the federal deposit insurance coverage rules.

SunTrust Index-Linked Certificates of Deposit (SILC)

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

IRS CIRCULAR 230 NOTICE

THIS DISCUSSION WAS NOT INTENDED OR WRITTEN TO BE USED, AND CANNOT BE USED, FOR THE PURPOSE OF AVOIDING UNITED STATES FEDERAL TAX PENALTIES THAT MAY BE IMPOSED ON THE INVESTOR. THIS DISCUSSION WAS WRITTEN TO SUPPORT THE PROMOTION OR MARKETING OF THE TRANSACTIONS OR MATTERS ADDRESSED IN THIS DISCLOSURE STATEMENT SUPPLEMENT AND THE ATTACHED DISCLOSURE STATEMENT, AND THE INVESTOR TO WHOM SUCH TRANSACTIONS OR MATTERS ARE BEING PROMOTED, MARKETED OR RECOMMENDED SHOULD SEEK ADVICE BASED ON ITS PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISOR.

Set forth below is a summary of the principal United States federal income tax considerations applicable to an investment in the SILC. The following discussion replaces, in its entirety, the summary set forth in the section entitled "Certain United States Federal Income Tax Considerations" in the Disclosure Statement. The summary therein is not applicable to the SILC and should not be consulted by investors.

For purposes of this summary, a "U.S. Holder" is a beneficial owner of a SILC that is:

- an individual who is a citizen or a resident of the United States, for federal income tax purposes;
- a corporation (or other entity that is treated as a corporation for federal tax purposes) that is created or organized in or under the laws of the United States or any State thereof (including the District of Columbia);
- an estate the income of which is subject to federal income taxation regardless of its source; or
- a trust if a court within the United States is able to exercise primary supervision over its administration, and one or more United States persons (as defined for federal income tax purposes) have the authority to control all of its substantial decisions.

For purposes of this summary, a "Non-U.S. Holder" is a beneficial owner of a SILC that is:

- a nonresident alien individual for federal income tax purposes;
- a foreign corporation for federal income tax purposes;
- an estate the income of which is not subject to federal income tax on a net income basis; or
- a trust if no court within the United States is able to exercise primary jurisdiction over its administration or if United States persons (as defined for federal income tax purposes) do not have the authority to control all of its substantial decisions.

An individual may, subject to certain exceptions, be deemed to be a resident of the United States for federal income tax purposes by reason of being present in the United States for at least 31 days in the current calendar year and for an aggregate of at least 183 days during a three year period ending in the current calendar year (counting for those purposes all of the days present in the current year, one third of the days present in the immediately preceding year, and one sixth of the days present in the second preceding year).

SunTrust Index-Linked Certificates of Deposit (SILC)

This summary is based on the Internal Revenue Code of 1986, as amended (the “Code”), regulations issued thereunder, and rulings and decisions currently in effect (or in some cases proposed), all of which are subject to change. Any of those changes may be applied retroactively and may adversely affect the federal income tax consequences described herein. This summary addresses only holders that purchase SILCs at initial issuance, and own SILCs as capital assets and not as part of a “straddle,” “hedge,” “synthetic security,” or “conversion transaction” for federal income tax purposes or as part of some other integrated investment. This summary does not discuss all of the tax consequences that may be relevant to particular investors or to investors subject to special treatment under the federal income tax laws (such as banks, thrifts or other financial institutions; insurance companies; securities dealers or brokers, or traders in securities electing mark-to-market treatment; regulated investment companies or real estate investment trusts; small business investment companies; S corporations; investors that hold their SILCs through a partnership or other entity treated as a partnership for federal tax purposes; investors whose functional currency is not the U.S. dollar; certain former citizens or residents of the United States; persons subject to the alternative minimum tax; retirement plans or other tax-exempt entities, or persons holding the SILCs in tax-deferred or tax-advantaged accounts; or “controlled foreign corporations” or “passive foreign investment companies” for federal income tax purposes). This summary also does not address the tax consequences to shareholders, or other equity holders in, or beneficiaries of, a holder, or any state, local or foreign tax consequences of the purchase, ownership or disposition of the SILCs.

NEITHER SUNTRUST BANK NOR ANY OF ITS OFFICERS OR EMPLOYEES PROVIDE TAX ADVICE. YOU SHOULD CONSULT YOUR TAX ADVISORS AS TO THE FEDERAL, STATE, LOCAL, AND OTHER TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF SILCS.

(i) Federal Income Tax Treatment of U.S. Holders

Accruals of Original Issue Discount on SILCs. For U.S. federal income tax purposes, we will treat the SILCs as contingent payment debt instruments subject to taxation under the “noncontingent bond method.” The SILCs should be treated as debt instruments of SunTrust Bank for United States federal income tax purposes and should be subject to taxation under the noncontingent bond method. The remainder of this discussion assumes that the SILCs will be subject to the noncontingent bond method, and the holders of the SILCs will agree to treat the SILCs in accordance with this treatment. Under the noncontingent bond method, U.S. Holders of the SILCs will accrue original issue discount (“OID”) over the term of the SILCs based on the SILCs’ comparable yield. As a result, U.S. Holders will be required to include OID with respect to their SILCs in gross income on an annual basis, even though no cash payments will be made with respect to the SILCs until maturity.

In general, the comparable yield of the SILCs is equal to the yield at which we would issue a “fixed rate debt instrument” with terms and conditions similar to those of the SILCs, including level of subordination, term, timing of payments, and general market conditions. If a hedge of the SILCs is available that, if integrated with the SILCs, would produce a synthetic debt instrument with a determinable yield to maturity, the comparable yield will be equal to the yield on the synthetic debt instrument. Under the noncontingent bond method, our reasonable determination of a comparable yield is generally respected and binding on holders of the SILCs. The comparable yield is determined by us as of the issuance date solely for U.S. federal income tax purposes and is neither a prediction nor a guarantee of what the actual yield will be on the SILCs.

Based on these factors, we have estimated that the comparable yield on the SILCs, solely for U.S. federal income tax purposes, is [4.50% to 5.50%] per annum (compounded semi-annually). Accordingly, U.S. Holders will generally accrue OID in respect of the SILCs at a rate equal to the comparable yield. The amount of OID allocable to each accrual period will be the product of the “adjusted issue price” of the SILCs at the beginning of each such accrual period and the comparable yield (properly adjusted for the length of the accrual period). The “adjusted issue price” of the SILCs at the beginning of an accrual period will equal the issue price of the SILCs plus the amount of OID previously includible in the gross income of the U.S. Holder. The issue price of the SILCs will be the principal amount of the SILCs. The amount of OID includible in the income of each U.S. Holder for each taxable year will generally equal the sum of the “daily

SunTrust Index-Linked Certificates of Deposit (SILC)

portions” of the total OID on the SILCs allocable to each day during the taxable year in which a U.S. Holder held the SILCs, regardless of the U.S. Holder’s method of accounting. Generally, the daily portion of the OID is determined by allocating to each day in any accrual period a ratable portion of the OID allocable to such accrual period. Such OID is included in income and taxed as ordinary income.

Under the noncontingent bond method, the comparable yield of the SILC is used to construct a projected payment schedule for the SILCs based on the expected payment at maturity, that produces the comparable yield (the “projected payment schedule”). The projected payment schedule generally is not revised to account for changes in circumstances that occur while the SILCs are outstanding. Based upon the comparable yield specified above, we have estimated that the projected payment schedule for SILCs that have a principal amount of \$1,000 and an issue price of \$1,000 consists of a payment of \$• on the Maturity Date (in addition to a principal payment of \$1,000 on the Maturity Date).

Based upon the comparable yield and the projected payment schedule for the SILCs, a U.S. Holder that pays taxes on a calendar year basis, buys a SILC for \$1,000, and holds the SILC until maturity, will be required to pay taxes on the following amounts of ordinary income in respect of the SILCs in each year:

Tax Period	Interest deemed to accrue on a \$1,000 principal amount SILC for U.S. federal income tax purposes	Total Interest deemed to accrue on a \$1,000 principal amount SILC for U.S. federal income tax purposes
2009	\$	\$
2010	\$	\$
2011	\$	\$
2012	\$	\$
2013	\$	\$
2014	\$	\$

However, as described below in “Retirement of the SILCs at Maturity” and “– Sale, Exchange or Other Disposition of the SILCs,” the amount of ordinary income that a U.S. Holder will be required to pay taxes on from owning a SILC may be greater or less than the amounts specified above, depending upon the amount received by the U.S. Holder at maturity or upon an earlier sale or other disposition of the SILC.

The comparable yield and projected payment schedule are not provided for any purpose other than the determination of a U.S. Holder’s interest accruals for U.S. federal income tax purposes and do not constitute a projection or representation by us regarding the actual yield on a SILC. We make no representation as to what such actual amounts will be.

A U.S. Holder is generally bound by the comparable yield and the projected payment schedule established by us for the SILCs. However, if a U.S. Holder believes that the projected payment schedule is unreasonable, a U.S. Holder must determine its own projected payment schedule and explicitly disclose the use of such schedule and the reason therefor on its timely filed U.S. federal income tax return for the taxable year in which it acquires the SILCs.

The comparable yield and projected payment schedule are provided solely to comply with the applicable U.S. federal income tax regulations in order to determine the amount of OID to be accrued by U.S. Holders of the SILCs solely for U.S. federal income tax purposes and do not constitute our assurances, representations, or expectations as to the actual yield on the SILC.

SunTrust Index-Linked Certificates of Deposit (SILC)

Retirement of the SILCs at Maturity. If the actual payment at maturity is greater than the projected payment at maturity reflected in the projected payment schedule, the excess will be a “positive adjustment,” which is treated as additional OID income. If the actual payment at maturity is less than the projected payment at maturity reflected in the projected payment schedule, the deficiency will be a “negative adjustment.” Such negative adjustment will be applied first to reduce the OID accrued for the year in which the maturity occurs and any remainder of such negative adjustment will be treated as an ordinary loss that will not be subject to the two percent floor limitation imposed on miscellaneous itemized deductions under section 67 of the Code. Holders of record who are individuals will receive information returns reporting OID on the SILCs.

Sale, Exchange or Other Disposition of the SILCs. A U.S. Holder will generally recognize gain or loss on the taxable sale, exchange, or other disposition of a SILC to the extent that the amount realized is more or less than its purchase price, increased by the OID previously accrued by the U.S. Holder on the SILC. In general, any gain realized by a U.S. Holder on the sale, exchange, or other disposition of a SILC will be treated as ordinary interest income. Any loss recognized on the taxable sale, exchange, or other disposition of a SILC will be treated as an ordinary loss to the extent of the OID previously accrued by such U.S. Holder on the SILC, which loss would not be subject to the limitations on the deductibility of miscellaneous itemized deductions under section 67 of the Code. Any loss in excess of such accrued OID would be treated as a capital loss. The deductibility of capital losses by U.S. Holders is subject to limitations.

(ii) Federal Income Tax Treatment of Non-U.S. Holders

Interest income (including OID) on SILCs owned by a Non-U.S. Holder and any income or gain realized by a Non-U.S. Holder upon the sale, early withdrawal, maturity or other disposition of a SILC generally will not be subject to any United States federal income or withholding tax so long as the income or gain is not effectively connected with the conduct by the Non-U.S. Holder of a trade or business within the United States.

(iii) Information Reporting and Backup Withholding

Information reporting will apply to certain payments on a SILC (including interest and OID) and proceeds of the sale of a SILC held by a U.S. Holder that is not a corporation or other exempt recipient. Backup withholding may apply to payments made to a U.S. Holder if (a) the U.S. Holder has failed to provide its correct taxpayer identification number on IRS Form W-9, (b) the payor has been notified by the IRS of an underreporting by such U.S. Holder (underreporting generally refers to a determination by the IRS that a payee has failed to include in income on its tax return any reportable dividend and interest payments required to be shown on a tax return for a taxable year) or (c) the payor has been notified by the IRS that the tax identification number provided to the IRS on an information return does not match IRS records or that the number was not on such information return.

Backup withholding will not be required with respect to holders that are Non-U.S. Holders, so long as the payor has received a correct and complete IRS Form W-8BEN or Form W-8IMY with all of the attachments required by the IRS, signed under penalty of perjury, identifying such Non-U.S. Holder and stating that it is not a United States person. Interest paid to a Non-U.S. Holder that is an individual who resides in Canada will be reported on IRS Form 1042-S which is filed with the IRS and sent to the Non-U.S. Holder.

Information reporting and backup withholding may apply to the proceeds of a sale of a SILC by a holder that is a Non-U.S. Holder made within the United States or conducted through certain U.S. related financial intermediaries, unless the payor receives the documentation described in the preceding paragraph. Backup withholding is not an additional tax and may be refunded (or credited against a Non-U.S. Holder’s U.S. federal income tax liability, if any), provided that certain required information is timely furnished to the IRS. The information reporting requirements may apply regardless of whether or not withholding is required. For Non-U.S. Holders, copies of the information returns reporting such amounts and withholding also may be made available to the tax authorities in the country in which the holder is a resident under the provisions of an applicable income tax treaty or agreement.

SunTrust Index-Linked Certificates of Deposit (SILC)

Disclosure Statement

Dated: July 31, 2009

SunTrust Bank

Index-Linked Certificates of Deposit

SunTrust Bank may offer its Index-Linked Certificates of Deposit, also known as SILCsSM (the “CDs”), from time to time and will specify the terms and conditions of each series in a supplement to this Disclosure Statement (the “Disclosure Statement Supplement”).

- On the stated maturity date of a CD (which will be specified in the applicable Disclosure Statement Supplement and may be subject to certain adjustments as discussed therein, the “Maturity Date”), provided that you own the CD on the Maturity Date, SunTrust Bank will pay the outstanding principal amount of the CD plus an interest payment, if any, that may be determined, in whole or in part, by reference to a stock market measure or measures, such as individual stocks, baskets of stocks, one or more stock indexes, an individual commodity or commodities, a commodity index, an individual currency, basket of currencies or currency index or such other reference as may be determined by SunTrust Bank (each, a “specified index”). SunTrust Bank may offer CDs that have a minimum interest payment (“Minimum Interest Amount”) and/or a periodic interest payment (“Periodic Interest Payment”) which, if applicable, will be indicated in the relevant Disclosure Statement Supplement.
- SunTrust Bank will pay no less than the outstanding principal amount of each CD on its Maturity Date.
- If so specified in the Disclosure Statement Supplement applicable to your CD, you may redeem your CD on certain days during the term of the CD, but otherwise, no withdrawal of funds will be permitted prior to the Maturity Date except, if so specified in the applicable Disclosure Statement Supplement, upon the death or adjudication of incompetence of the beneficial owner.
- The CD will be eligible for federal deposit insurance up to \$100,000 (including principal and accrued interest) in most insurable capacities (e.g., individual, joint, etc.) CDs held through an IRA, Section 457 Plan, self-directed Keogh Plan and certain self-directed defined contribution plans will be eligible to be insured up to \$250,000 (including principal and accrued interest) in the aggregate. The insurance limit applicable to each insurable capacity will be referred to as the “Maximum Applicable Deposit Insurance Amount” and may be changed from time to time. See “Deposit Insurance: General – Temporary Increase in Deposit Insurance Limits.” For purposes of the Maximum Applicable Deposit Insurance Amount, you must aggregate all deposits that you maintain with SunTrust Bank in the same insurable capacity, including deposits you hold directly with SunTrust Bank and deposits of SunTrust Bank you hold through any intermediary, such as a securities broker. The Federal Deposit Insurance Corporation (“FDIC”) has taken the position that contingent interest does not accrue, and is not insured by the FDIC, until the contingency has been removed. Any interest on the CD, the amount of which is related to changes in a specified index over the term of the CD as measured on one or more valuation dates, cannot be determined and does not accrue until the final valuation date and is considered contingent interest until that date. Such interest will not be eligible for federal deposit insurance prior to the final valuation date. The extent of, and limitations on, federal deposit insurance are discussed below in the sections headed “Deposit Insurance: General” and “Deposit Insurance: Retirement Plans and Accounts” below.
- The CD may be made available through SunTrust Robinson Humphrey, Inc., SunTrust Investment Services, Inc. and certain other brokers (each, an “Offering Broker” and, together, the “Offering Brokers”), as specified in

SunTrust Index-Linked Certificates of Deposit (SILC)

the applicable Disclosure Statement Supplement. SunTrust Robinson Humphrey, Inc. and SunTrust Investment Services, Inc. are affiliates of SunTrust Bank. Each CD will be a direct deposit obligation of SunTrust Bank and will not, either directly or indirectly, be an obligation of any Offering Broker or any other person or entity.

- An investment in a CD involves risk. For a discussion of certain of these risks, please see the section entitled “Risk Factors” herein. In making an investment decision, you must rely on your own examination of SunTrust Bank and the terms of the CD, including the risks involved. You should not purchase a CD unless you have the financial status and, either alone or with a financial advisor, the knowledge and experience to understand, and the ability to bear, such risks.
- Unless otherwise indicated in the applicable Disclosure Statement Supplement, in the case of a CD with a maturity of more than one year, most U.S. Holders (as defined below) of a CD, other than those purchasing a CD through a tax-advantaged or tax-deferred retirement account (such as an IRA), are required to include in their taxable income imputed interest income on the CD during each tax year in which the CD is outstanding, even if there are no payments of interest on the CD until maturity or at all. Accordingly, you should be prepared to pay taxes on the imputed interest income during each tax year. See the section headed “Certain United States Federal Income Tax Considerations” below.

This Disclosure Statement and any Disclosure Statement Supplement do not constitute an offer or solicitation by anyone in any state or jurisdiction in which such offer or solicitation is not authorized or in which the person making the offer or solicitation is not qualified to do so or to any person to whom it is unlawful to make such an offer or solicitation. The information contained in this Disclosure Statement and any Disclosure Statement Supplement may only be accurate as of the dates of such documents.

The specific terms and conditions of each CD offering will be described in the Disclosure Statement Supplement delivered with this Disclosure Statement. To the extent that any of the specific descriptions in the Disclosure Statement Supplement are inconsistent with the descriptions contained in this Disclosure Statement, the descriptions in the Disclosure Statement Supplement will control. The information contained in this Disclosure Statement and any Disclosure Statement Supplement may not be modified by any oral representation made prior or subsequent to the purchase of a CD.

CIRCULAR 230 DISCLOSURE

TO ENSURE COMPLIANCE WITH REQUIREMENTS IMPOSED BY THE INTERNAL REVENUE SERVICE (THE “IRS”), WE INFORM YOU THAT (A) ANY UNITED STATES FEDERAL TAX DISCUSSION CONTAINED HEREIN (INCLUDING ANY ATTACHMENTS OR ENCLOSURES) WAS NOT INTENDED OR WRITTEN TO BE USED, AND CANNOT BE USED, FOR THE PURPOSE OF AVOIDING UNITED STATES FEDERAL TAX PENALTIES, (B) ANY SUCH DISCUSSION WAS WRITTEN TO SUPPORT THE PROMOTION OR MARKETING OF THE TRANSACTION OR MATTER ADDRESSED HEREIN AND (C) ANY TAXPAYER TO WHOM THE TRANSACTIONS OR MATTERS ARE BEING PROMOTED OR MARKETED SHOULD SEEK ADVICE BASED ON ITS PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISOR.

DESCRIPTION OF THE CD

General

SunTrust Bank may offer, from time to time, certain CDs. This Disclosure Statement contains a general description of the CD. The specific terms of each offering of CDs, including the specified index, interest payable, calculation methodology, early redemption feature, if any, special risk factors and special tax considerations (each, to the extent applicable), will be set forth in the applicable Disclosure Statement Supplement. To the extent that any of the

SunTrust Index-Linked Certificates of Deposit (SILC)

specific descriptions in the applicable Disclosure Statement Supplement are inconsistent with the descriptions contained in this Disclosure Statement, the descriptions in the applicable Disclosure Statement Supplement will control.

The CDs will be offered in denominations of \$1,000 and integral multiples thereof. The applicable Disclosure Statement Supplement will disclose if the particular offer requires a minimum investment of more than one CD. In addition, each Offering Broker may independently require that a minimum principal amount be purchased in a single transaction.

On the Maturity Date for a CD, you will be entitled to receive the principal amount of such CD that you own plus an interest payment (such interest payment, the “Indexed Amount”), if any, which, unless otherwise provided in the applicable Disclosure Statement Supplement, will be related to the change in the level of a specified index (the “Index”) determined as described in the applicable Disclosure Statement Supplement. SunTrust Bank may offer CDs that pay a Minimum Interest Amount which, if payable, will be indicated in the applicable Disclosure Statement Supplement. The Minimum Interest Amount, if applicable, will be paid as a one time payment on the Maturity Date in lieu of the Indexed Amount if such Minimum Interest Amount is greater than the Indexed Amount. SunTrust Bank may also offer CDs that pay Periodic Interest Payments over the term of the CD at a specified annual interest rate or at a rate determined by reference to changes in a specified index over the term of the CD which, if payable, will be indicated in the applicable Disclosure Statement Supplement. Periodic Interest Payments, if applicable, will be payable on the dates specified in the Disclosure Statement Supplement and may be paid in addition to, or instead of, any Indexed Amount or Minimum Interest Amount, if any, as specified in the Disclosure Statement Supplement.

Early withdrawal may be permitted in the case of the death or adjudication of incompetence of the beneficial owner of a CD as described herein if so provided in the applicable Disclosure Statement Supplement. In addition, if so provided in the applicable Disclosure Statement Supplement, you will have the right to elect early withdrawal of your CD on specified days during the term of the CD. You may not receive the full principal amount of a CD if you make such an early withdrawal election on any specified day. No additions to the CD will be permitted. The CD will not be automatically renewed. No interest will accrue and no Indexed Amount will be earned on a CD prior to its original issue date (the “Issue Date”) or after its Maturity Date.

If a Periodic Interest Payment date or Maturity Date falls on a day that is not a Business Day, that payment will be made on the next Business Day and no interest shall accrue as a result of the delayed payment. “Business Day” means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which commercial banks are authorized or required by law, regulation or executive order to close in New York, New York or Atlanta, Georgia. The Maturity Date for a CD may be subject to certain other adjustments as may be specified in the applicable Disclosure Statement Supplement and, where any such adjustment applies, no interest shall accrue as a result of the delayed payment.

For information regarding the United States federal income tax treatment of the CD, please see the section entitled “Certain United States Federal Income Tax Considerations” herein.

Payment at Maturity

You will be entitled to receive the principal amount of each CD that you own on the applicable Maturity Date for such CD plus the Indexed Amount, if any, as provided for below. If applicable, you may be entitled to receive any Minimum Interest Amount on the Maturity Date in lieu of the Indexed Amount if such Minimum Interest Amount is greater than the Indexed Amount. SunTrust Bank will be obligated to repay the principal amount of each CD on its Maturity Date regardless of any changes in the Index.

SunTrust Index-Linked Certificates of Deposit (SILC)

Determination of the Indexed Amount

The Indexed Amount for a CD will be determined by SunTrust Bank (in such capacity, the “Calculation Agent”) as set forth in the applicable Disclosure Statement Supplement. The determination of the Indexed Amount for any CD will be based on the change in the Index over the term of the CD or based on the changes in the Index for specified periods within the term of the CD. The actual methodology for determining the Indexed Amount will be set forth in the applicable Disclosure Statement Supplement. If the Indexed Amount, as determined in accordance with the specified methodology, is negative, it shall be deemed to be zero. All determinations made by the Calculation Agent shall be at the sole discretion of the Calculation Agent and, in the absence of manifest error, shall be conclusive for all purposes and binding on the beneficial owners of the CDs.

Early Withdrawal

Except as provided in the next paragraph, no withdrawals of principal or interest, as the case may be, will be permitted prior to the Maturity Date, except, if so specified in the applicable Disclosure Statement Supplement, in the event of the death of the beneficial owner of a CD, or the adjudication of incompetence of any such beneficial owner by a court or other administrative body of competent jurisdiction. In such event, provided that prior written notice of such proposed withdrawal has been given to the broker from whom the CD was purchased and SunTrust Bank, together with appropriate documentation to support such request, SunTrust Bank will permit withdrawal of the full principal amount of the CD held by such beneficial owner (no partial withdrawals will be permitted). Unless provided for in the applicable Disclosure Statement Supplement, upon such withdrawal, only the principal amount will be paid and no other amount will be due.

If so specified in the Disclosure Statement Supplement applicable to your CD, you will have a limited right to elect early withdrawal of your CD for the applicable Early Redemption Amount (as defined below). Prior to each date specified as an elective early withdrawal date in the applicable Disclosure Statement Supplement (each, an “Early Redemption Date”), you may request that a CD be withdrawn in a principal amount that is at least \$1,000 and integral multiples of \$1,000 provided that the remaining principal amount of such CD is at least equal to the minimum denomination specified in the Disclosure Statement Supplement. The Calculation Agent will calculate the Early Redemption Amount once it has been informed of the aggregate amount that all beneficial owners intend to withdraw on the applicable Early Redemption Date.

The “Early Redemption Amount” shall be determined at the sole discretion of the Calculation Agent and will be computed differently than the amount payable on the CD on the Maturity Date. The Early Redemption Amount will include an early withdrawal penalty, which will be determined by taking into account certain factors and may include the costs to SunTrust Bank associated with the early withdrawal. The applicable Disclosure Statement Supplement will describe the elective early withdrawal provisions, if any, applicable to your CD.

SunTrust Bank will make final payment of the Early Redemption Amount on the third Business Day after the applicable Early Redemption Date, without accrual of any interest on the Early Redemption Amount.

The Early Redemption Amount could be less than the principal amount of your CD, resulting in a negative return on your investment notwithstanding increases in the level of the Index from the Issue Date to the Early Redemption Date.

Seven Business Days prior to each Early Redemption Date, the Calculation Agent will calculate and deliver to the Depository Trust Company (“DTC”) an indicative Early Redemption Amount, illustrating what the Early Redemption Amount would have been had such Early Redemption Date occurred on the date of such calculation, and will provide an explanation of the procedures for elective early withdrawal. The indicative Early Redemption Amount will not be

SunTrust Index-Linked Certificates of Deposit (SILC)

binding on SunTrust Bank and will differ, perhaps significantly, from that calculated with respect to the Early Redemption Date.

You must exercise the option to elect early withdrawal your CD through your broker. To make your election effective, you must make certain that your notice of election of early withdrawal is delivered to SunTrust Bank through your broker prior to 12:00 noon in The City of New York two (2) Business Days prior to the applicable Early Redemption Date. Different brokers have different deadlines for accepting instructions from their customers. You should consult your broker to ascertain the deadline for ensuring that timely notice will be delivered to SunTrust Bank through your broker.

RISK FACTORS

Your purchase of a CD will involve certain risks. For example, there is the risk that you might not earn a return on your investment and the risk that you will be unable to sell your CD in the secondary market prior to the Maturity Date. You should compare the features of the CD to other available investments before deciding to purchase a CD. Due to the uncertainty as to whether a CD will earn an Indexed Amount, the return you receive with respect to a CD may be higher or lower than the returns on other deposits available from the Offering Brokers or SunTrust Bank. You should not purchase a CD unless you have the financial status and, either alone or with a financial advisor, the knowledge and experience to understand, and the ability to bear, the risks of an investment in the CD. You should reach an investment decision only after carefully considering with your advisors the suitability of an investment in a CD in light of your particular circumstances.

The Indexed Amount

You should be aware that, if the Index does not change so as to produce an Indexed Amount greater than zero, you will receive only the principal amount of your CD plus the Minimum Interest Amount or Periodic Interest Payments, if any, specified in the related Disclosure Statement Supplement. The level of the Index, at some time during the life of a CD, may increase so that the Indexed Amount would be greater than zero, but the Index can later fall and reduce the Indexed Amount to zero. If the Indexed Amount is based upon several Index levels determined at intervals over the term of a CD, it is possible that the Indexed Amount will equal zero even though the Index level on the Maturity Date is greater than the initial Index level. In addition, the Indexed Amount may be subject to the application of a participation factor (the "Participation Factor"), which will reduce or increase the Indexed Amount. If the Indexed Amount is zero, you will be paid only the principal amount of your CD plus the Minimum Interest Amount or Periodic Interest Payments, if any, specified in the related Disclosure Statement Supplement.

Insolvency of SunTrust Bank

In the event SunTrust Bank approaches insolvency or becomes insolvent, it may be placed in regulatory conservatorship or receivership with the FDIC typically appointed the conservator or receiver. The FDIC as conservator or receiver may transfer to another insured depository institution any of the insolvent institution's assets and liabilities, including liabilities such as the CDs, without the approval or consent of the beneficial owners of the CDs. The transferee depository institution would be permitted to offer beneficial owners of the CDs the choice of (i) repayment of the principal amount of the CDs or (ii) less favorable terms. If the CD is paid off prior to its Maturity Date, either by a transferee depository institution or the FDIC, its beneficial owner may not be able to reinvest the funds at the same rate of return as the rate on the original CD.

An Investment in a CD Subjects You to the Credit Risk of SunTrust Bank

An investment in a CD will be subject to the credit risk of SunTrust Bank. A CD constitutes a senior unsecured obligation of SunTrust Bank.

SunTrust Index-Linked Certificates of Deposit (SILC)

Limitations on Deposit Insurance

The FDIC has taken the position that the Indexed Amount, if any, and any secondary market premium paid by a depositor above the principal amount on the CD are not insured by the FDIC. In the event that FDIC insurance payments become necessary for the CD, the FDIC is required to pay the principal amount of the CD and any accrued but unpaid noncontingent interest, as prescribed by law, subject to the Maximum Applicable Deposit Insurance Amount. The extent of, and limitations on, federal deposit insurance are discussed in this Disclosure Statement in the section entitled "Deposit Insurance: General" and "Deposit Insurance: Retirement Plans and Accounts." Except to the extent insured by the FDIC as described in this Disclosure Statement, the CD is not otherwise insured by any governmental agency or instrumentality or any other person.

Limited Access to Invested Funds

You may withdraw a CD prior to the Maturity Date on the periodic Early Redemption Dates, if any, specified in the Disclosure Statement Supplement for your CD. Otherwise, withdrawals of funds will be permitted only upon the death or adjudication of incompetence of the beneficial owner of a CD. Because of these restrictions, you should understand that access to your funds is limited prior to the Maturity Date.

The Offering Brokers, though not obligated to do so, may maintain a secondary market in a CD upon completion of the distribution. However, neither the Offering Brokers nor SunTrust Bank can provide assurance that you will be able to sell your CD in the secondary market prior to its Maturity Date. Therefore, you should not rely on any such ability to sell your CD prior to its Maturity Date for any benefits, including achieving trading profits, limiting trading or other losses, realizing income or having access to the proceeds. Even if the Offering Brokers maintain a secondary market, it is unlikely that the secondary market value of the CD will correlate closely with the level of the Index. The CD will not be listed on any national exchange or quoted on any U.S. automated inter-dealer quotation system or traded in the over-the-counter market.

You May Not Be Entitled To The Return Of Your Principal Amount Prior To The Maturity Date

SunTrust Bank will return 100% of the principal amount of a CD on the Maturity Date or, if applicable, if such funds are withdrawn prior to the Maturity Date due to death or adjudication of incompetence of the beneficial owner as described herein. The amount you receive upon any other early withdrawal or upon a secondary market sale of your CD may be less and could be significantly less than the principal amount. This may be true even if the level of the Index on the date of such redemption or sale is greater than such level at the beginning of the term of the CD.

Your Return, If Any, May Be Lower Than The Return On Other Available Investments

The return you receive on your CD may be less than the return you could have earned on other investments, including a direct investment in each of the components comprising an Index. Your return may be less than the return available on other deposits available at SunTrust Bank or from any Offering Broker. An investment in a CD could produce no return, if the Indexed Amount is zero and no Minimum Interest Amount or Periodic Interest Payments are payable in respect of such CD. Your investment may not reflect the full opportunity cost to you when you take into account factors that affect the time value of money. This is because you have lost the use of the principal amount deposited for the term of the CD's investment. The payment on the Maturity Date of a CD does not include any dividends paid, if any, on a component of the Index.

You Have No Rights In The Components Of The Index

Your interest in a CD does not entitle you to the rights of a holder of any of the components of the Index, including voting rights, the right to receive interest, dividends or other distributions.

SunTrust Index-Linked Certificates of Deposit (SILC)

Hedging Transactions By Us May Affect Your Return

SunTrust Bank and certain of its affiliates may enter into transactions in the components of the Index and futures or options contracts on the Index prior to and during the term of a CD in order to hedge their obligations related to the CD and for other business reasons. While SunTrust Bank does not expect that these transactions will have a material effect on the Index, no assurance can be given that these activities will not have a negative impact on the return you receive on the CD.

United States Federal Income Tax Considerations

Unless otherwise indicated in the applicable Disclosure Statement Supplement, there generally will be taxes due on ordinary income from a CD prior to the receipt of any cash payments, except for any Periodic Interest Payments that may be payable on the CD, as described in the section entitled “Certain United States Federal Income Tax Considerations” herein. All purchasers should consult their tax advisors regarding the United States federal income tax consequences of purchasing, owning and disposing of a CD.

PURCHASING A CD

CDs may only be purchased through an Offering Broker and a depositor must deliver to that Offering Broker an amount equal to at least the minimum denomination required by the relevant Disclosure Statement Supplement.

No CD account will be established by SunTrust Bank until the later of (i) SunTrust Bank’s receipt of the proceeds thereof from an Offering Broker and (ii) the settlement of a CD through the facilities of DTC on the Issue Date thereof (the “Closing Time”). Furthermore, SunTrust Bank has the right, exercisable in its own discretion at or prior to the Closing Time, to reject any such proceeds, without regard to its earlier receipt thereof. Any such rejection of funds after receipt thereof may result from a determination made solely by SunTrust Bank in good faith that market conditions as of the Issue Date would render issuance of the relevant CD uneconomic to SunTrust Bank on the terms set forth in the relevant Disclosure Statement Supplement. Any such funds rejected by SunTrust Bank will be returned without the accrual of any interest.

YOUR RELATIONSHIP WITH THE OFFERING BROKER AND SUNTRUST BANK

The CD will be evidenced by one or more master certificates issued by SunTrust Bank, each representing a number of individual CDs. These master certificates will be held by or on behalf of DTC. The Offering Broker through which you purchase your CD acting as your nominee, authorized representative, agent or custodian, will maintain records evidencing your ownership of the CD that you purchase, and will provide you with a confirmation (a “Confirmation”) and periodic account statements (each an “Account Statement”) reflecting such purchase, which should be retained for your records. No evidence of ownership, such as a passbook or a certificate, will be provided to you. The Confirmation will state the original principal amount of your CD, from which you can determine how much premium, if any, you paid for the CD. The value of your CD may be difficult to accurately determine at any time during the term of the CD. The value indicated on your Account Statement is an estimated value, which may be less than the original principal amount of your CD and more than the Early Redemption Amount available to you upon an elective early withdrawal on the next Early Redemption Date, if any. Because you will not be provided with a certificate evidencing your CD, the purchase of a CD is not recommended for persons who wish to take physical possession of a certificate. Each CD constitutes a direct deposit obligation of SunTrust Bank and is not, either directly or indirectly, an obligation of any Offering Broker or other person or entity.

Payments on the CD will be remitted by SunTrust Bank to DTC when due. Upon receipt in full of such amounts by DTC, SunTrust Bank will be discharged from any further obligation with regard to such payments. Such payments will be credited through DTC’s procedures to participant firms and thereafter will be remitted to the Offering Broker

SunTrust Index-Linked Certificates of Deposit (SILC)

through whom you purchased your CD, so long as such Offering Broker acts as your nominee, authorized representative, agent or custodian, and credited to your account with such Offering Broker.

If you choose to terminate your Offering Broker as nominee, authorized representative, agent or custodian with regard to a CD, you (i) may transfer your CD to another broker-dealer or other institution that is a member of DTC, or a correspondent of such a member, or (ii) request that your ownership of the CD be evidenced directly on the books of SunTrust Bank, subject to applicable law and SunTrust Bank's terms and conditions, including those related to the manner of evidencing CD ownership. If you choose to remove the Offering Broker, the Offering Broker will have no further responsibility for payments made with respect to the CD. If your CD is established on the books of SunTrust Bank, you will have the ability to enforce your rights in the CD directly against SunTrust Bank.

SUNTRUST BANK

SunTrust Bank is a Georgia-chartered bank and a member of the Federal Reserve System. SunTrust Bank offers a full range of financial services for consumers and businesses. As of March 31, 2009, SunTrust Bank had 1,694 full-service branches, including 319 in-store branches, and 2,673 automated teller machines located primarily in Florida, Georgia, Maryland, North Carolina, South Carolina, Tennessee, Virginia and the District of Columbia. In addition, SunTrust Bank provides customers with a selection of technology-based banking channels including Internet and telephone banking. The principal executive offices of SunTrust Bank are located at 303 Peachtree Street, N.E., Atlanta, Georgia.

SunTrust Bank files Consolidated Reports of Condition and Income (the "Call Reports") on Federal Financial Institutions Examination Council ("FFIEC") Form 031 with its primary federal regulator. Each Call Report consists of a Balance Sheet, Income Statement, Changes in Equity Capital and other supporting schedules as of the end of or for the period to which the Call Report relates. The Call Reports are prepared in accordance with regulatory instructions issued by the FFIEC. These instructions in most, but not all, cases follow generally accepted accounting principles, including the opinions and statements of the Accounting Principles Board and the Financial Accounting Standards Board. While the Call Reports are supervisory and regulatory documents, not primarily accounting documents, and do not provide a complete range of financial disclosure about SunTrust Bank, the Call Reports nevertheless provide important information concerning the financial condition and results of operations of SunTrust Bank. The Call Reports are on file with, and are publicly available upon written request to, the FDIC at 801 17th Street, N.W., Washington, D.C. 20429, Room 100, or by calling the FDIC at (202) 416-6940. The Call Reports are also available by accessing the FDIC's web site (<http://www.fdic.gov>).

SunTrust Bank is a wholly-owned indirect subsidiary of SunTrust Banks, Inc., a financial holding company under the Bank Holding Company Act of 1956, as amended, incorporated under the laws of the State of Georgia. SunTrust Banks, Inc. is subject to the informational requirements of the Securities Exchange Act of 1934, as amended, and in accordance therewith files reports, proxy statements and other information with the Securities and Exchange Commission (the "SEC"). Such reports, proxy statements and other information can be inspected and copied at the public reference facilities maintained by the SEC at 450 Fifth Street, N.W., Judiciary Plaza, Washington, D.C. 20549. The SEC also maintains a web site (<http://www.sec.gov>) that contains reports, proxy statements and other information regarding SunTrust Banks, Inc. Such reports, proxy statements and other information also may be inspected at the offices of the New York Stock Exchange at 20 Broad Street, 17th Floor, New York, New York 10005. The CDs are deposit obligations of SunTrust Bank and are not obligations of, or guaranteed by, SunTrust Banks, Inc., or any other affiliate of SunTrust Bank.

DEPOSIT INSURANCE: GENERAL

SunTrust Index-Linked Certificates of Deposit (SILC)

Your CD is insured by the FDIC, an independent agency of the U.S. Government, to the Maximum Applicable Deposit Insurance Amount (including principal and interest) for all deposits held in the same insurable capacity at any one issuer. Generally, any accounts or deposits that you may maintain directly with SunTrust Bank, or through any other intermediary in the same capacity in which the CD is maintained, would be aggregated with the CD for purposes of the Maximum Applicable Deposit Insurance Amount. In the event SunTrust Bank fails, an interest-bearing CD is insured, up to the Maximum Applicable Deposit Insurance Amount, for principal and interest accrued to the date SunTrust Bank is closed. Interest is determined for deposit insurance purposes in accordance with federal law and regulations.

Under certain circumstances, if you become the owner of a CD or other deposit at SunTrust Bank because another depositor dies, beginning six months after the death of the depositor, the FDIC will aggregate those deposits for purposes of the Maximum Applicable Deposit Insurance Amount with any other CD or deposit that you own in the same insurable capacity at SunTrust Bank. Examples of accounts that may be subject to this FDIC policy include joint accounts, “payable on death” accounts and certain trust accounts. The FDIC provides a six month “grace period” to permit you to restructure your deposits to obtain the maximum amount of deposit insurance for which you are eligible.

The FDIC has taken the position that contingent interest does not accrue, and is not insured by the FDIC, until the contingency has been removed. Any interest on the CD, the amount of which is related to changes in a specified index over the term of the CD as measured on one or more valuation dates, cannot be determined and does not accrue until the final valuation date (as specified in the applicable Disclosure Statement Supplement, the “Final Valuation Date”) and is considered contingent interest until that date. If SunTrust Bank fails before the Final Valuation Date, such interest will not be insured by the FDIC.

If your CD or other deposit at SunTrust Bank is assumed by another depository institution pursuant to a merger or consolidation, such CD or deposit will continue to be separately insured from the deposits that you might have established with the acquiror until (i) the maturity date of the CD or other time deposit that was assumed or (ii) with respect to deposits that are not time deposits, the expiration of a six-month period from the date of the acquisition. Thereafter, any assumed deposits will be aggregated with your existing deposits with the acquiror held in the same insurable capacity for purposes of federal deposit insurance. Any deposit opened at the acquiror after the acquisition will be aggregated with deposits established with the acquiror for purposes of federal deposit insurance.

In the event that you purchase a CD in the secondary market at a premium over the par amount, that premium is not insured. Similarly, you are not insured for any premium reflected in the estimated market value of your CD on your periodic statement. If deposit insurance payments become necessary for SunTrust Bank, you can lose the premium paid for your CD and you will not receive any premium shown on your periodic statement. See the section headed “Secondary Market” below.

The application of the Maximum Applicable Deposit Insurance Amount is illustrated by several common factual situations discussed below.

Individual Customer Accounts. Deposits of any one issuer held by an individual in an account in the name of an agent or nominee of such individual (such as a CD held in a brokerage account) or held by a custodian (for example, under the Uniform Gifts to Minors Act or the Uniform Transfers to Minors Act) are not treated as owned by the agent, nominee or custodian, but are added to other deposits of such individual held in the same capacity (including funds held in a sole proprietorship) and insured up to \$100,000 in the aggregate. Deposits held through a qualified tuition savings program (529 Plan) will be insured as deposits of the participant in the qualified tuition savings program and aggregated with other deposits of the participant if the arrangement and the name of the participant are identified on the Offering Broker’s account records.

SunTrust Index-Linked Certificates of Deposit (SILC)

Corporate, Partnership and Unincorporated Association Accounts. Deposits of any one issuer owned by corporations (including Subchapter S corporations), partnerships and unincorporated associations, operated for a purpose other than to increase deposit insurance, are added together with other deposits owned by such corporation, partnership and unincorporated association, respectively, and are insured up to \$100,000 in the aggregate.

Joint Accounts. An individual's interest in deposits of any one issuer held under any form of joint ownership valid under applicable state law may be insured up to \$100,000 in the aggregate, separately and in addition to the \$100,000 allowed on other deposits individually owned by any of the co-owners of such accounts (hereinafter referred to as a "Joint Account"). For example, a Joint Account owned by two persons would be eligible for insurance coverage of up to \$200,000 (\$100,000 for each person), subject to aggregation with each owner's interests in other Joint Accounts at the same depository institution. Joint Accounts will be insured separately from individually owned accounts only if each of the co-owners is an individual person and has a right of withdrawal on the same basis as the other co-owners.

Revocable Trust Accounts. *General Rule.* Deposits of any one issuer in which the owner evidences an intent that at his or her death the funds shall belong to one or more individuals (frequently referred to as a "Totten trust" account, "payable upon death" account or other type of revocable trust account (as determined under applicable state law)) will be aggregated with other deposits of the owner held in an individual capacity at the issuer and insured up to a maximum of \$100,000. *Special Rule.* Revocable trust accounts will be insured as to each named beneficiary, separately from another account of the owner or the beneficiary, provided that: (i) the Offering Broker's account records indicate the existence of the trust relationship; (ii) the beneficiary is an individual, a charitable organization or other non-profit organization recognized as such by the Internal Revenue Service; and (iii) the beneficiaries of the revocable trust are specifically named in the Offering Broker's account records. However, a revocable trust account established by a husband and wife that names the husband and wife as sole beneficiaries will be treated as a Joint Account, and will be aggregated with other Joint Accounts subject to the rules described above under "Joint Accounts." *Living Trusts.* A living trust is a formal revocable trust over which the owner retains ownership and control of the assets and designation of beneficiaries during his or her lifetime. Living trusts are subject to special rules, which should be carefully reviewed in order to determine the available deposit insurance coverage.

Irrevocable Trust Accounts. Deposits of any one issuer held pursuant to one or more irrevocable trust agreements created by the same grantor (as determined under applicable state law) will be insured for up to \$100,000 for the interest of each beneficiary provided that the beneficiary's interest in the account is non-contingent (i.e., capable of determination without evaluation of contingencies). According to the FDIC, Coverdell Education Savings Accounts will be treated as irrevocable trust accounts for deposit insurance purposes. The deposit insurance of each beneficiary's interest is separate from the coverage provided for other accounts maintained by the beneficiary, the grantor, the trustee or other beneficiaries. The interest of a beneficiary in irrevocable trust accounts at an issuer created by the same grantor will be aggregated and insured up to \$100,000.

Medical Savings Accounts. Deposits of any one issuer held in a medical savings account, sometimes referred to as an Archer Medical Savings Account, will be eligible for deposit insurance as either an individual account, a revocable trust account or an employee benefit plan. You may wish to consult with your attorney or the FDIC to determine the available coverage.

Temporary Increase in Deposit Insurance Limits

On October 3, 2008, the Maximum Applicable Deposit Insurance Amount of \$100,000 (where applicable prior to that date) was temporarily increased to \$250,000 through December 31, 2009. On May 29, 2009, the period during which the Maximum Applicable Deposit Insurance Amount was temporarily increased was extended from December 31,

SunTrust Index-Linked Certificates of Deposit (SILC)

2009 to December 31, 2013. SunTrust Bank is not presently required, and does not intend, to notify depositors of any subsequent changes in FDIC insurance coverage limits.

DEPOSIT INSURANCE: RETIREMENT PLANS AND ACCOUNTS

Introduction

If you have CDs that are held through one or more retirement plans and accounts, the Maximum Applicable Deposit Insurance Amount available for those CDs will vary depending on the type of plan or account and, in some cases, the features of the plan or account.

The following sections discuss in general terms the rules that apply to CDs and other deposits held through retirement plans and accounts. Because these rules determine the Maximum Applicable Deposit Insurance Amount available to you and whether your deposits at any one issuer held through different retirement plans and accounts will be aggregated for purposes of the Maximum Applicable Deposit Insurance Amount, you should consult with your tax or legal adviser before investing in the CDs.

Pass-Through Deposit Insurance for Employee Benefit Plan Deposits

Subject to the limitations discussed below, under FDIC regulations an individual's non-contingent interests in the deposits of any one issuer held by many types of plans are eligible for insurance up to the Maximum Applicable Deposit Insurance Amount on a pass-through basis. This means that instead of an employee benefit plan's deposits at one issuer being entitled to only the Maximum Applicable Deposit Insurance Amount in total per issuer, each participant in the employee benefit plan is entitled to insurance of his or her non-contingent interest in the employee benefit plan's deposits of up to the Maximum Applicable Deposit Insurance Amount per issuer (subject to the aggregation of the participant's interests in different plans, as discussed below). The pass-through insurance provided to an individual as an employee benefit plan participant is separate from the Maximum Applicable Deposit Insurance Amount allowed on other deposits held by an individual in different insurable capacities with an issuer.

The types of plans for which deposits may receive pass-through treatment are employee benefit plans, as defined in Section 3(3) of the Employee Retirement Income Security Act ("ERISA") (including Keogh plans, whether or not they are technically "employee benefit plans" under ERISA) ("ERISA Plans") and eligible deferred compensation plans described in Section 457 of the Internal Revenue Code of 1986. For purposes of Section 3(3) of ERISA, employee benefit plans are broadly defined to include most employee benefit plans, including most defined benefit plans and most defined contribution plans.

A deposit held by an employee benefit plan that is eligible for pass-through insurance is not insured for an amount equal to the number of plan participants multiplied by the Maximum Applicable Deposit Insurance Amount. For example, an employee benefit plan owns \$200,000 in CDs at one issuer and the participants are eligible for up to \$100,000 per plan beneficiary. The employee benefit plan has two participants, one with a non-contingent interest of \$170,000 and one with a non-contingent interest of \$30,000. In this case, the employee benefit plan's deposit would be insured up to only \$130,000; the individual with the \$170,000 interest would be insured up to the \$100,000 limit and the individual with the \$30,000 interest would be insured up to the full value of such interest.

The contingent interests of employees in an employee benefit plan and overfunded amounts attributed to any employee benefit plan are not insured on a pass-through basis. Contingent interests of employees in an employee

SunTrust Index-Linked Certificates of Deposit (SILC)

benefit plan deposit are interests that are not capable of evaluation in accordance with FDIC rules and are aggregated and insured up to the Maximum Applicable Deposit Insurance Amount per issuer. Similarly, overfunded amounts are insured, in the aggregate for all participants, up to the Maximum Applicable Deposit Insurance Amount separately from the insurance provided for any other funds owned by or attributable to the employer or an employee benefit plan participant.

Retirement Plans and Accounts Eligible For a Maximum Applicable Deposit Insurance Amount of \$250,000

The retirement plans and accounts described below are eligible for a Maximum Applicable Deposit Insurance Amount of \$250,000 and all deposits held through such plans and accounts will be aggregated for purposes of the Maximum Applicable Deposit Insurance Amount. This means that all deposits of any one issuer that you hold through the plans and accounts described below will be eligible for insurance up to a total of \$250,000.

Individual Retirement Accounts (“IRAs”). All deposits of the same issuer held in traditional, Roth, SEP and SIMPLE IRAs will be aggregated for purposes of the Maximum Applicable Deposit Insurance Amount and will be further aggregated with deposits held through other plans described in this section.

Section 457 Plans. These plans include any eligible deferred compensation plan described in Section 457 of the Internal Revenue Code of 1986, as amended (the “Code”).

Self-Directed Keogh and 401(k) Plans. These include deposits held in any plan described in Section 401(d) of the Internal Revenue Code of 1986, generally referred to as Keogh plans, and in any plan described in Section 3(34) of ERISA including, but not limited to, plans generally referred to as Section 401(k) plans. The plan must be “self-directed” to qualify for the \$250,000 deposit insurance limit. The FDIC defines self-directed to mean the ability of the plan participants to direct funds into a specific depository institution.

Retirement Plans and Accounts Eligible For a Maximum Applicable Deposit Insurance Amount of \$100,000

All retirement plans and accounts not listed above, including defined contribution plans and plans that do not meet the FDIC’s “self-directed” criteria, will be eligible for federal deposit insurance up to \$100,000 per participant, subject to the aggregation rules described below.

Additional Aggregation For Purposes of the Maximum Applicable Deposit Insurance Amount

In addition to the aggregation rules discussed above for retirement plans and accounts eligible for a Maximum Applicable Deposit Insurance Amount of \$250,000, under FDIC regulations an individual’s interests in plans maintained by the same employer or employee organization (e.g., a union) that are holding deposits of the same issuer will be aggregated for purposes of the Maximum Applicable

Deposit Insurance Amount. It is therefore important to understand the type of plan or account holding your deposits.

QUESTIONS ABOUT FDIC DEPOSIT INSURANCE COVERAGE

If you have questions about basic FDIC insurance coverage, please contact your financial and/or legal advisors. You may particularly wish to seek advice concerning FDIC insurance coverage of deposits held in more than one insurable capacity. You may also obtain information by contacting the FDIC, Office of Consumer Affairs, by letter (550 17th Street, N.W., Washington, D.C. 20429), by phone (877-275-3342 or 800-925-4618 (TDD)) or by e-mail (dcainternet@fdic.gov) or visiting the FDIC website at www.fdic.gov.

PAYMENTS UNDER ADVERSE CIRCUMSTANCES

SunTrust Index-Linked Certificates of Deposit (SILC)

As with all deposits, if it becomes necessary for federal deposit insurance payments to be made on the CDs, there is no specific time period during which the FDIC must make insurance payments available. Accordingly, you should be prepared for the possibility of an indeterminate delay in obtaining insurance payments.

As explained above, the Maximum Applicable Deposit Insurance Amount applies to the principal and accrued interest on all CDs and other deposit accounts maintained by you at SunTrust Bank in the same insurable capacity. The records maintained by SunTrust Bank and your Offering Broker regarding ownership of the CDs would be used to establish your eligibility for federal deposit insurance payments. In addition, you may be required to provide certain documentation to the FDIC and to your Offering Broker before insurance payments are released to you. For example, if you hold CDs as trustee for the benefit of trust participants, you may also be required to furnish an affidavit to that effect; you may be required to furnish other affidavits and provide indemnities regarding an insurance payment.

In the event that deposit insurance payments become necessary for your CDs, the FDIC is required to pay the original par amount plus accrued interest to the date of the closing of SunTrust Bank, as prescribed by law, and subject to the Maximum Applicable Deposit Insurance Amount. No interest is earned on deposits or the CDs from the time SunTrust Bank is closed until insurance payments are received.

As an alternative to a direct deposit insurance payment from the FDIC, the FDIC may transfer the insured deposits of an insolvent institution to a healthy institution. Subject to insurance verification requirements and the limits on deposit insurance coverage, the healthy institution may assume the CDs under the original terms or offer you a choice between paying the CDs off and maintaining the deposit at a different rate. Your Offering Broker will advise you of your options in the event of a deposit transfer.

The Offering Broker will not be obligated to you for amounts not covered by deposit insurance and will not be obligated to make any payments to you in satisfaction of a loss you may incur as a result of, (i) a delay in insurance payouts applicable to your CD, (ii) your receipt of a decreased interest rate on an investment replacing your CD as a result of the payment of the principal and accrued interest or the accreted value of a CD prior to its scheduled maturity or (iii) payment in cash of the principal and accrued interest of your CDs prior to maturity in connection with the liquidation of SunTrust Bank or the assumption of all or a portion of its deposit liabilities. In connection with the latter, the amount of a payment on a CD that had been purchased at a premium in the secondary market is based on the original par amount (or, in the case of a zero-coupon CD, its accreted value) and not on any premium amount. Therefore, you can lose up to the full amount of the premium as a result of such a payment. Also, the Offering Broker will not be obligated to credit your account with funds in advance of payments received from the FDIC.

FEES

Under the arrangements established by SunTrust Bank with the Offering Brokers selling the CD, your Offering Broker will receive a placement fee in connection with your purchase of a CD. Also, a CD sold in the secondary market may have been purchased from SunTrust Bank by a broker upon issuance and held by the broker until the secondary market sale.

Unless otherwise specified in the applicable Disclosure Statement Supplement, Offering Brokers may purchase CDs from SunTrust Bank and resell such CDs at varying prices with varying mark ups.

SunTrust Bank may enter into arrangements with one or more of its affiliates to hedge the market risks associated with its obligations to pay amounts due on the Maturity Date of any CD. The affiliates on occasion may include SunTrust Robinson Humphrey, Inc. and the affiliates may make a profit in connection with this arrangement.

SECONDARY MARKET

SunTrust Index-Linked Certificates of Deposit (SILC)

The Offering Broker, though not obligated to do so, may maintain a secondary market in the CDs after their Settlement Date. If you wish to sell your CD prior to maturity and the Offering Broker does not maintain a secondary market, the Offering Broker may attempt to sell your CD in a secondary market maintained by another broker-dealer. The Offering Broker cannot provide assurance that you will be able to sell your CDs prior to their maturity. In addition, a secondary market for the CDs may be discontinued at any time without notice. Therefore, you should not rely on any such ability to sell your CDs for any benefits, including achieving trading profits, limiting trading or other losses, realizing income prior to maturity, or having access to proceeds prior to maturity.

In the event that a buyer is available at a time you attempt to sell your CD prior to its maturity, the price at which your CD is sold may result in a return to you that may differ from the yield that the CD would have earned had it been held to maturity, since the selling price for a CD in such circumstances will likely be based on a number of factors such as interest rate movements, time remaining until maturity and other market conditions. Also, the price you may pay for any CD purchased in the secondary market will include a mark-up established by the Offering Broker. Similarly, the price at which a CD may be sold if a secondary market is available will reflect a mark-down retained by the Offering Broker. In the event you choose to sell a CD in the secondary market, you may receive less in sale proceeds than the original principal (par) amount of the CD or the estimated price on your account statement.

In the event that a CD is purchased in the secondary market at a premium over the par amount (or accreted value in the case of a zero-coupon CD), the premium is not insured. Therefore, if deposit insurance payments become necessary for the issuer, the owner of a CD purchased in the secondary market can incur a loss of up to the amount of the premium paid for the CD. (Also see the section headed "Deposit Insurance: General".)

The uninsured premium being paid for an interest bearing CD can be determined from the price set forth in your trade confirmation. Price on CDs is expressed in relation to par (100.00). Any amount over 100.00 represents the premium. For example, if your trade confirmation states that the price for a CD purchased in the secondary market is 100.25, there is a premium that will not be insured by the FDIC. A price of 99.75 would not include a premium. The trade confirmation will also inform you if the CD has accrued interest, which will be insured as long as the par amount of CDs held by you in one insurable capacity at the issuer plus the accrued interest does not exceed the Maximum Applicable Deposit Insurance Amount.

In the case of a zero-coupon CD purchased in the secondary market, the uninsured premium can initially be calculated by subtracting the accreted value from the "Gross Amount" paid. This uninsured premium does, however, decline over time. The accreted value of a zero-coupon CD, which is based upon the original issue yield and price, can be obtained at the time of purchase from the Offering Broker.

If you purchase a callable CD in the secondary market at a premium, you will receive only the par amount if the CD is called.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

CIRCULAR 230 DISCLOSURE

TO ENSURE COMPLIANCE WITH REQUIREMENTS IMPOSED BY THE IRS, WE INFORM YOU THAT (A) ANY UNITED STATES FEDERAL TAX DISCUSSION CONTAINED HEREIN (INCLUDING ANY ATTACHMENTS OR ENCLOSURES) WAS NOT INTENDED OR WRITTEN TO BE USED, AND CANNOT BE USED, FOR THE PURPOSE OF AVOIDING UNITED STATES FEDERAL TAX PENALTIES, (B) ANY SUCH DISCUSSION WAS WRITTEN TO SUPPORT THE PROMOTION OR MARKETING OF THE TRANSACTION OR MATTER ADDRESSED HEREIN AND (C) ANY TAXPAYER TO WHOM THE TRANSACTIONS OR MATTERS ARE BEING PROMOTED OR MARKETED SHOULD SEEK ADVICE BASED ON ITS PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISOR.

SunTrust Index-Linked Certificates of Deposit (SILC)

The following is a summary of certain United States federal income and, for certain foreign persons, estate tax consequences of the purchase, ownership and disposition of the CDs. The following summary is based upon laws, regulations, rulings and decisions in effect as of the date of this Disclosure Statement, all of which are subject to change (possibly with retroactive effect) or possible differing interpretations. The discussion below applies only to CDs held as capital assets for United States federal income tax purposes and does not purport to address tax consequences to persons in special tax situations, such as financial institutions, insurance companies, regulated investment companies, real estate investment trusts, dealers in securities or currencies, tax-exempt entities, persons holding CDs in a tax-exempt, tax-deferred or tax-advantaged account, persons subject to the alternative minimum tax or persons holding CDs as a hedge against currency risks, as a position in a “straddle” or as part of a “hedging,” “conversion,” “synthetic security” or other integrated transaction for tax purposes. In addition, this summary does not address any applicable state, local or foreign tax laws. This summary applies only to purchasers of CDs who acquire the CDs for an amount equal to the original principal amount.

Persons considering purchasing a CD should consult the applicable Disclosure Statement Supplement for additional discussion of the United States federal income tax consequences related to a particular CD. In addition, persons considering purchasing a CD should consult their own tax advisors concerning the application of the United States federal income tax laws to their particular situations as well as any consequences of the purchase, ownership and disposition of a CD arising under the laws of any other taxing jurisdiction.

As used herein, the term “U.S. Holder” means a beneficial owner of a CD that is for United States federal income tax purposes (a) a citizen or resident of the United States, (b) a corporation, partnership or other entity treated as a corporation or a partnership that is created or organized in or under the laws of the United States, any state thereof or the District of Columbia (other than a partnership that is not treated as a United States person under any applicable Treasury regulations), (c) an estate the income of which is subject to United States federal income taxation regardless of its source, or (d) a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust. Certain trusts not described in clause (d) above in existence on August 20, 1996, that elect to be treated as United States persons will also be U.S. Holders for purposes of the following discussion. As used herein, the term “non-U.S. Holder” means a beneficial owner of a CD that is not a U.S. Holder.

General

There are no statutory provisions, regulations, published rulings or judicial decisions addressing or involving the characterization, for United States federal income tax purposes, of the CD or other instruments with terms substantially the same as the CD. However, although the matter is not free from doubt, under current law, each CD should be treated as a debt instrument of SunTrust Bank for United States federal income tax purposes. SunTrust Bank currently intends to treat each CD as a debt instrument of SunTrust Bank for United States federal income tax purposes and, where required, intends to file information returns with the IRS in accordance with such treatment, in the absence of any change or clarification in the law, by regulation or otherwise, requiring a different characterization of the CD. Moreover, by purchasing the CD, a purchaser agrees to this treatment of the CD. Prospective investors in the CD should be aware, however, that the IRS is not bound by SunTrust Bank’s or a purchaser’s characterization of the CD as indebtedness, and the IRS could possibly take a different position as to the proper characterization of the CD for United States federal income tax purposes. The following discussion of certain United States federal income tax consequences of the purchase, ownership and disposition of the CDs is based upon the assumption that each CD will be treated as a debt instrument of SunTrust Bank for United States federal income tax purposes. If the CD is not in fact treated as a debt instrument of SunTrust Bank for United States federal income tax purposes, then the United States federal income tax treatment of the purchase, ownership and disposition of the CD could differ from the treatment discussed below with the result that the timing and character of income, gain or loss recognized in respect of a CD

SunTrust Index-Linked Certificates of Deposit (SILC)

could differ from the timing and character of income, gain or loss recognized in respect of a CD had the CD in fact been treated as a debt instrument of SunTrust Bank for United States federal income tax purposes.

U.S. Holders

CDs With Maturities of One Year or Less

Cash Method U.S. Holders. The amount payable at maturity with respect to a CD having a stated maturity of one year or less (a “short-term CD”) in excess of the original principal amount thereof, if any, should generally be includible in income by a U.S. Holder who uses the cash method of accounting as ordinary interest on the date the amount payable at maturity is received. In addition, a U.S. Holder of a short-term CD who uses the cash method of accounting will be required to include in income prior to the Maturity Date the receipt of Periodic Interest Payments, if any, with respect to the short-term CD. Upon the sale, exchange or redemption of a short-term CD prior to its Maturity Date, a U.S. Holder who uses the cash method of accounting generally should recognize taxable gain or loss in an amount equal to the difference between the amount realized on the sale, exchange or redemption and such U.S. Holder’s tax basis in the short-term CD. Such a U.S. Holder’s tax basis in a short-term CD generally should equal such U.S. Holder’s initial investment in the short-term CD. Such gain or loss generally would be short-term capital gain or loss. However, all or a portion of any such gain should be treated as ordinary income to the extent of the original issue discount (as described below under “—Accrual Method U.S. Holders”) that has accrued on a straight-line basis, or upon election under a constant yield method (based on daily compounding), through the date of the disposition. In addition, a U.S. Holder of a short-term CD who uses the cash method of accounting generally will be required to defer deductions for interest paid on indebtedness incurred to purchase or carry a short-term CD in an amount not exceeding the accrued original issue discount until the accrued original issue discount is included in income.

Accrual Method U.S. Holders. U.S. Holders who use the accrual method of accounting, and certain other holders including banks and dealers in securities and currencies, should be required to accrue original issue discount on a short-term CD on a straight-line basis unless an election is made to accrue the original issue discount under a constant yield method (based on daily compounding). Such original issue discount should accrue based upon an estimated yield for the short-term CD. Upon maturity of a short-term CD, to the extent that the actual yield on the short-term CD differs from this estimated yield, such difference should be treated as additional original issue discount or as an offset to previously accrued original issue discount. Upon the sale, exchange or redemption of a short-term CD prior to its Maturity Date, a U.S. Holder who uses the accrual method of accounting generally should recognize short-term capital gain or loss (or, in some cases, possibly an offset to previously accrued original issue discount) in an amount equal to the difference between the amount realized on the sale, exchange or redemption and such U.S. Holder’s adjusted tax basis in the short-term CD. A U.S. Holder’s adjusted tax basis generally should equal such U.S. Holder’s initial investment in the short-term CD increased by any original issue discount included in income by the U.S. Holder, and decreased by the amount of any payments previously received with respect to the short-term CD (e.g., Periodic Interest Payments).

CDs With Maturities of More Than One Year

Regulations (the “Regulations”) issued by the Treasury Department address the proper United States federal income tax treatment of contingent payment debt instruments, such as a CD having a stated maturity of more than one year (a “long-term CD”). The Regulations will apply to a long-term CD. The Regulations generally require a U.S. Holder of a contingent payment debt instrument to include future contingent and noncontingent interest payments in income as that interest accrues based upon a projected payment schedule. Although a long-term CD may not be issued at a discount, all amounts includible in income by a U.S. Holder as ordinary interest pursuant to the Regulations will be treated as original issue discount. Moreover, in general, under the Regulations, any gain recognized by a U.S. Holder on the sale, exchange, redemption or retirement of a contingent payment debt instrument is treated as ordinary

SunTrust Index-Linked Certificates of Deposit (SILC)

income and all or a portion of any loss realized could be treated as ordinary loss as opposed to capital loss (depending upon the circumstances). The Regulations provide no definitive guidance as to whether an instrument is properly characterized as a debt instrument for United States federal income tax purposes.

In particular, solely for purposes of applying the Regulations to a long-term CD, SunTrust Bank will be required to determine a projected payment schedule for the long-term CD. The projected payment schedule for a long-term CD will consist of the Periodic Interest Payments on the long-term CD, if any, a payment on the Maturity Date of the principal amount of the long-term CD, and a projected Indexed Amount (the "Projected Indexed Amount"). This projected payment schedule will represent an estimated yield for the long-term CD. Long-term CDs having different Maturity Dates and/or offered at different times will have different projected payment schedules and estimated yields.

During the term of a long-term CD, a U.S. Holder of a long-term CD will be required to include in income as ordinary interest an amount equal to the sum of the daily portions of interest on the long-term CD that are deemed to accrue at the applicable estimated yield for each day during the taxable year (or portion of the taxable year) on which the U.S. Holder holds such long-term CD (regardless of such U.S. Holder's regular method of tax accounting). The amount of interest that will be deemed to accrue in any accrual period will equal the product of the applicable estimated yield (properly adjusted for the length of the accrual period) and the long-term CD's adjusted issue price (as described below) at the beginning of the accrual period. The daily portions of interest will be determined by allocating to each day in the accrual period the ratable portion of the interest that is deemed to accrue during the accrual period. In general, for these purposes, a long-term CD's adjusted issue price will equal the long-term CD's issue price (i.e., the principal amount thereof), increased by the interest previously accrued on the long-term CD, and decreased by the amount of Periodic Interest Payments, if any, previously made on the long-term CD. As a result of the foregoing rules, a U.S. Holder will not be required to separately include in income the Periodic Interest Payments, if any, received on a long-term CD.

On the Maturity Date of a long-term CD, if the actual Indexed Amount, if any, exceeds the Projected Indexed Amount, a U.S. Holder will be required to include the excess of the actual Indexed Amount over the Projected Indexed Amount in income as ordinary interest on the Maturity Date. Alternatively, if the actual Indexed Amount, if any, is less than the Projected Indexed Amount, the excess of the Projected Indexed Amount over the actual Indexed Amount (or, if the actual Indexed Amount is less than or equal to any one-time Minimum Interest Amount payable at maturity, such one-time Minimum Interest Amount) will be treated first as an offset to any interest otherwise includible in income by the U.S. Holder with respect to the long-term CD for the taxable year in which the Maturity Date occurs to the extent of the amount of that includible interest. Any remaining portion of the Projected Indexed Amount in excess of the actual Indexed Amount (or, if the actual Indexed Amount is less than or equal to any one-time Minimum Interest Amount payable at maturity, such one-time Minimum Interest Amount) that is not treated as an interest offset pursuant to the foregoing rules generally will be an ordinary loss to the extent of interest previously included in income, and thereafter, capital loss. The deductibility of any such ordinary loss will not be subject to the limitations applicable to miscellaneous itemized deductions. Any such capital loss generally will be treated as long-term or short-term capital loss depending upon the U.S. Holder's holding period for the CD.

Notwithstanding the foregoing, if the actual Indexed Amount becomes fixed (either at zero or, if a one-time Minimum Interest Amount may be payable at maturity, at such one-time Minimum Interest Amount) more than six months before the Maturity Date, a U.S. Holder will have a positive or negative adjustment, as appropriate, equal to the difference between the present value of the actual fixed Indexed Amount, using the comparable yield as the discount rate, and the projected amounts of the Indexed Amount as provided in the projected payment schedule.. Under the Regulations, a U.S. Holder would be required to take into account such positive or negative adjustment in a reasonable manner over the period to which such adjustment relates. In addition, under the Regulations, if the Indexed Amount becomes fixed more than six months before the Maturity Date, the Indexed Amount will no longer be treated as a contingent payment after the date the Indexed Amount becomes fixed. Moreover, on the date the

SunTrust Index-Linked Certificates of Deposit (SILC)

Indexed Amount becomes fixed, the projected payment schedule for a long-term CD will be modified prospectively to reflect the fixed amount of the payment. Thus, for example, at maturity of a long-term CD, a U.S. Holder would not be permitted to treat the excess, if any, of the Projected Indexed Amount over the actual Indexed Amount as an interest offset or as an ordinary loss on the Maturity Date. In addition to the foregoing, for purposes of accruing original issue discount under the Regulations, if the actual Indexed Amount becomes fixed during an accrual period (i.e., generally each six-month period during which the long-term CD is outstanding), a new accrual period will begin on the day after the day on which the actual Indexed Amount becomes fixed. U.S. Holders should consult their own tax advisors regarding the application of these special rules.

Upon the sale, exchange or redemption of a long-term CD prior to the Maturity Date, a U.S. Holder will be required to recognize taxable gain or loss in an amount equal to the difference, if any, between the amount realized by the U.S. Holder upon such sale, exchange or redemption and the U.S. Holder's adjusted tax basis in the long-term CD as of the date of disposition. A U.S. Holder's adjusted tax basis in a long-term CD generally will equal such U.S. Holder's initial investment in the long-term CD increased by any interest previously accrued on the long-term CD by the U.S. Holder, and decreased by the amount of any payments previously received with respect to the long-term CD (i.e., Periodic Interest Payments). Any such taxable gain will be treated as ordinary income. Any such taxable loss will be treated as ordinary loss to the extent of the U.S. Holder's total interest inclusions on the long-term CD. Any remaining loss generally will be treated as long-term or short-term capital loss (depending upon the U.S. Holder's holding period for the long-term CD). Notwithstanding the foregoing, if the actual Indexed Amount becomes fixed more than six months before the Maturity Date, any gain or loss recognized by a U.S. Holder upon the sale or exchange of a long-term CD prior to the Maturity Date generally will be treated as capital gain or loss. Any such gain or loss would generally be long-term or short-term capital gain or loss (depending upon the U.S. Holder's holding period for the long-term CD).

All prospective investors in long-term CDs should consult their own tax advisors concerning the application of the Regulations to their investment in long-term CDs. Investors in long-term CDs may also obtain the projected payment schedule for their long-term CDs, as determined by SunTrust Bank for purposes of applying the Regulations to the long-term CDs, from SunTrust Bank as more fully described in the applicable Disclosure Statement Supplement.

The projected payment schedule (including both the Projected Indexed Amount and the estimated yield on a long-term CD) will be determined solely for United States federal income tax purposes (i.e., for purposes of applying the Regulations to the long-term CD) and is neither a prediction nor a guarantee of what the actual Indexed Amount will be, or that the actual Indexed Amount will even exceed zero (or, if a one-time Minimum Interest Amount may be payable at maturity, such one-time Minimum Interest Amount).

Non-U.S. Holders

Subject to the discussion of backup withholding below, a non-U.S. Holder will not be subject to United States federal income taxes on payments of principal or interest (including original issue discount, if any) on a CD, so long as such payments are not effectively connected with the conduct by the non-U.S. Holder of a trade or business in the United States.

Subject to the discussion of backup withholding below, any gain realized by a non-U.S. Holder on the sale, exchange or redemption of a CD generally will not be subject to United States federal income tax, unless (1) such gain is effectively connected with the conduct by such non-U.S. Holder of a trade or business in the United States or (2) the non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of the disposition and certain other conditions are satisfied.

If income or gain on a CD is effectively connected with a non-U.S. Holder's conduct of a trade or business in the United States, the non-U.S. Holder generally will be subject to regular United States federal income tax (and, if

SunTrust Index-Linked Certificates of Deposit (SILC)

paid to a corporate non-U.S. Holder, may also be subject to a 30% branch profits tax, or lower rate provided by a tax treaty) on a net basis on interest and on any gain realized on the sale, exchange or redemption of the CD in the same manner as if it were a U.S. Holder. Such a non-U.S. Holder will be required to provide the applicable withholding agent with a properly executed IRS Form W-8ECI (or successor form) in order to claim an exemption from withholding tax.

Under current law, a CD will not be includible in the estate of a non-U.S. Holder unless, at the time of such individual's death, payments in respect of such CD would have been effectively connected with the conduct by such individual of a trade or business in the United States.

Non-U.S. Holders should consult their tax advisors about any applicable tax treaties, which may provide for an exemption from or lower rate of withholding tax, exemption from or reduction of branch profits tax, or other rules different from those described above.

Backup withholding

Backup withholding at the applicable statutory rate of United States federal income tax may apply to payments made in respect of the CDs to registered owners who are not "exempt recipients" and who fail to provide certain identifying information (such as the registered owner's taxpayer identification number) in the required manner. Generally, individuals are not exempt recipients, whereas corporations and certain other entities generally are exempt recipients. Payments made in respect of a CD to a U.S. Holder must be reported to the IRS, unless the U.S. Holder is an exempt recipient or establishes an exemption. Non-U.S. Holders who are not exempt recipients generally may establish an exemption from information reporting to the IRS and backup withholding by providing to us (either directly or through a financial institution holding the CD as a nominee for the non-U.S. Holder) with a statement that (a) is signed by the beneficial owner of the CD under penalties of perjury, (b) certifies that such owner is a non-U.S. Holder and (c) provides the name and address of the beneficial owner. The statement may generally be made on IRS Form W-8 (or other applicable form) or a substantially similar form, and the beneficial owner must inform us (directly or indirectly) of any change in the information on the statement within 30 days of that change by filing a new IRS Form W-8 (or other applicable form).

In addition, upon the sale of a CD to (or through) a broker, the broker must withhold at the applicable statutory rate on the entire purchase price, unless either (a) the broker determines that the seller is a corporation or other exempt recipient or (b) the seller provides, in the required manner, certain identifying information (*e.g.*, an IRS Form W-9) and, in the case of a non-U.S. Holder, certifies that such seller is a non-U.S. Holder (and certain other conditions are met). Such a sale must also be reported by the broker to the IRS, unless either (a) the broker determines that the seller is an exempt recipient or (b) the seller certifies its non-U.S. status (and certain other conditions are met). Certification of the registered owner's non-U.S. status would be made normally on an IRS Form W-8 (or other applicable form) under penalties of perjury, although in certain cases it may be possible to submit other documentary evidence.

Any amounts withheld under the backup withholding rules from a payment to a beneficial owner would be allowed as a refund or a credit against such beneficial owner's United States federal income tax provided the required information is furnished to the IRS.

ERISA CONSIDERATIONS

Each administrator or other fiduciary of an ERISA Plan, should consider the fiduciary standards of ERISA in the context of the ERISA Plan's particular circumstances before authorizing an investment in the CDs. Accordingly, among other factors, the fiduciary should consider whether the investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the ERISA Plan, and whether the investment would involve a prohibited transaction under Section 406 of ERISA or Section 4975 of the Code.

SunTrust Index-Linked Certificates of Deposit (SILC)

Section 406 of ERISA and Section 4975 of the Code prohibit ERISA Plans, as well as individual retirement accounts and Keogh plans subject to Section 4975 of the Code from engaging in certain transactions involving “plan assets” with persons who are “parties in interest” under ERISA or “disqualified persons” under the Code (each such person being a “party in interest”) with respect to the plan or account (such transactions being “prohibited transactions”). A violation of these rules regarding prohibited transactions may result in civil penalties or other liabilities under ERISA and/or an excise tax under Section 4975 of the Code for those persons engaging in a prohibited transaction, unless exemptive relief is available under an applicable statutory, regulatory or administrative exemption. Certain employee benefit plans and arrangements including those that are governmental plans (as defined in section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA) and foreign plans (as described in Section 4(b)(4) of ERISA) (“non-ERISA arrangements”) are not subject to the requirements of ERISA or Section 4975 of the Code but may be subject to similar provisions under applicable federal, state, local, foreign or other regulations, rules or laws (“similar laws”).

The acquisition of a CD by an ERISA Plan with respect to which SunTrust Bank or certain of its affiliates is or becomes a party in interest may constitute or result in a prohibited transaction under ERISA or Section 4975 of the Code, unless the CD is acquired pursuant to and in accordance with an applicable exemption. The U.S. Department of Labor has issued five prohibited transaction class exemptions, or “PTCEs”, that may provide exemptive relief if required for direct or indirect prohibited transactions that may arise from the purchase or holding of a CD. These exemptions are:

- (1) PTCE 84-14, an exemption for certain transactions determined or effected by independent qualified professional asset managers;
- (2) PTCE 90-1, an exemption for certain transactions involving insurance company pooled separate accounts;
- (3) PTCE 91-38, an exemption for certain transactions involving bank collective investment funds;
- (4) PTCE 95-60, an exemption for transactions involving certain insurance company general accounts; and
- (5) PTCE 96-23, an exemption for plan asset transactions managed by in-house asset managers.

A CD may not be purchased or held by (1) any ERISA Plan, (2) any entity whose underlying assets include “plan assets” by reason of any plan’s investment in the entity (a “plan asset entity”) or (3) any person investing “plan assets” of any ERISA Plan, unless in each case the purchaser or holder of the CD is eligible for the exemptive relief available under one or more of the PTCEs listed above or another applicable similar exemption. Any purchaser or holder of a CD or any interest in a CD will be deemed to have represented by its purchase and holding of the CD that it either (1) is not an ERISA Plan or a plan asset entity and is not purchasing the CD on behalf of or with “plan assets” of any ERISA Plan or plan asset entity or (2) with respect to the purchase or holding of the CD, is eligible for the exemptive relief available under any of the PTCEs listed above or another applicable exemption. In addition, any purchaser or holder of a CD or any interest in a CD which is a non-ERISA arrangement will be deemed to have represented by its purchase and holding of the CD that its purchase and holding will not violate the provisions of any similar law.

Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is important that fiduciaries or other persons considering purchasing a CD on behalf of or with “plan assets” of any ERISA Plan, plan asset entity or non-ERISA arrangement consult with their legal advisors regarding the availability of exemptive relief under any of the PTCEs listed above or any other applicable exemption, or the potential consequences of any purchase or holding under similar laws, as applicable.
